The Complete Idiot's Guide to Buying Insurance and Annuities Island Press

On the eve of Victorian England, Charles Dickens and Kate Hogarth must solve the murder of a spinster wearing a wedding gown . . . London, June 1835: In the interest of being a good neighbor, Charles checks in on Miss Haverstock, the elderly spinster who resides in the flat above his. But as the young journalist and his fiancée Kate ascend the stairs, they are assaulted by the unmistakable smell of death. Upon entering the woman's quarters, they find her decomposing corpse adorned in a faded gown that looks like it could have been her wedding dress, had she been married. A murderer has set the stage. But to what purpose? As news of an escaped convict from Coldbath Fields reaches the couple, Charles reasonably expects the prisoner, Ned Blood, may be responsible. But Kate suspects more personal motives, given the time and effort in dressing the victim. When a local blacksmith is found with cut manacles in his shop and

arrested, his distraught wife begs Charles and Kate to help. At the inquest, they are surprised to meet Miss Haverstock's cold and haughty illegitimate daughter, shadowed by her miserably besotted companion. Secrets shrouded by the old woman's past may hold the answers to this web of mystery. But Charles and Kate will have to risk their lives to unveil the truth . . . “As easy to read as one of Mr. Dickens' actual novels and as entertaining.” —New York Journal of Books

This textbook provides instruction in college level rhetoric and writing. It offers readings, a research manual, a handbook and supports a range of approaches to teaching and learning, including collaboration, visual rhetoric, personal writing, writing about literature, writing in the community

and the workplace, field research, portfolios, oral presentations, essay exams, and ESL. It contains step-by-step guides to writing specific kinds of essays -- remembering events, writing profiles, explaining a concept, finding common ground, arguing a position, proposing a solution, justifying an evaluation, speculating about causes, and interpreting stories. Because so much college writing requires strong argumentation skills, four of the assignment chapters focus on argumentative writing, and a separate strategies chapter covers theses, reasons and support, counterarguments, and logical fallacies. Three full chapters on research give students useful strategies not only for conducting field, library, and Internet research, but also for evaluating sources; deciding whether to quote, paraphrase, or summarize; avoiding plagiarism; and documenting sources. The authors have included 39 readings by well-known authors and various "fresh" voices, including 12 students, providing well-written examples of the different types of essays and papers

that students might be asked to complete.

Her name was Henrietta Lacks, but scientists know her as HeLa. She was a poor Southern tobacco farmer who worked the same land as her slave ancestors, yet her

cells—taken without her knowledge—became one of the most important tools in medicine: The first “immortal” human cells grown in culture, which are still alive today, though she has been dead for more than sixty years. HeLa cells were vital for developing the polio vaccine; uncovered secrets of cancer, viruses, and the atom bomb’s effects; helped lead to important advances like in vitro fertilization, cloning, and gene mapping; and have been bought and sold by the billions. Yet Henrietta Lacks remains virtually unknown, buried in an unmarked grave. Henrietta’s family did not learn of her “immortality” until more than twenty years after her death, when scientists investigating HeLa began using her husband and children in research without informed consent. And though the cells had launched a multimillion-dollar industry that sells human biological materials, her family never saw any of the profits. As Rebecca Skloot so brilliantly shows, the story of the Lacks family—past and present—is inextricably connected to the dark history of experimentation on African Americans, the birth of bioethics, and the legal battles over whether we control the stuff we are made of. Over the decade it took to uncover this story, Rebecca became enmeshed in the lives of the Lacks family—especially Henrietta’s

daughter Deborah. Deborah was consumed with questions: Had scientists cloned her mother? Had they killed her to harvest her cells? And if her mother was so important to medicine, why couldn’t her children afford health insurance? Intimate in feeling, astonishing in scope, and impossible to put down, *The Immortal Life of Henrietta Lacks* captures the beauty and drama of scientific discovery, as well as its human consequences.

Foster provides us with a broad overview of literature—a world where a road leads to a quest, a shared meal may signify a communion, and rain, whether cleansing or destructive, is never just a shower—and shows us how to make our reading experience more enriching, satisfying, and fun.
