Littell/Houghton Mifflin For twenty years, the Roman Empire conquered its way through modern-day Germany, claiming all lands from the Rhine to the Elbe. However, when at last all appeared to be under control, a catastrophe erupted that claimed the lives of 10,000 legionnaires and laid Rome's imperial ambitions for Germania into the dust. In late September of 9 AD, three Roman legions, while marching to suppress a distant tribal rebellion, were attacked in a four-day battle with

the Germanic barbarians. The Romans, under the leadership of the provinces governor, Publius Quinctilius Varus, were taken completely by surprise, betrayed by a member of their own ranks: the German officer and secret rebel leader, Arminius. The defeat was a heavy blow to both Rome's military and its pride. Though the disaster was ruthlessly avenged soon afterwards, later attempts at conquering the Germans were half-hearted at best. Four days in September thoroughly examines the ancient sources and challenges the hypotheses of modern scholars to present a clear picture of the prelude to the battle, the fighting itself and its aftermath.

Over the past three decades, more and more nursing educators have turned to Lewis: Medical-Surgical Nursing for its accurate and up-to-date coverage of the latest trends, hot topics, and clinical developments in the field of medical-surgical nursing - and the new ninth edition is no exception! Written by a dedicated team of expert authors led by Sharon Lewis, Medical-Surgical Nursing, 9th Edition offers the same easy-to-read style that students have come to love, along with the timely and thoroughly accurate content that educators have come to trust. Completely revised and updated content explores patient care in various clinical settings and focuses on key topics such as prioritization, critical thinking, patient safety, and NCLEX® exam preparation. Best of all - a complete collection of interactive student resources

creates a more engaging learning environment to prepare you for clinical practice. Highly readable format gives you a strong foundation in medical-surgical nursing. Content written and reviewed by leading experts in the field ensures that the information is comprehensive, current, and clinically accurate. Bridge to NCLEX Examination review questions at the end of each chapter reinforce key content while helping you prepare for the NCLEX examination with both standard and alternate item format questions. UNIQUE! "Levels of Care" approach explains how nursing care varies for different levels of health and illness. More than 50 comprehensive nursing care plans in the book and online incorporate NIC, NOC, and current NANDA diagnoses, defining characteristics, expected outcomes, specific nursing interventions with rationales, evaluation criteria, and collaborative problems. Over 800 full-color illustrations and photographs clearly demonstrate disease processes and related anatomy and physiology. NEW! Unfolding case studies included throughout each assessment chapter help you apply important concepts and procedures to real-life patient care. NEW! Managing Multiple Patients case studies at the end of each section give you practice applying your knowledge of various disorders and help you prioritize and delegate patient care. NEW!

Informatics boxes discuss how technology is used by nurses and patients in health care settings. NEW! Expanded coverage of evidence-based practice helps you understand how to apply the latest research to real-life patient care. NEW! Expanded Safety Alerts throughout the book cover surveillance for high-risk situations. NEW! Separate chapter on genetics expands on this key topic that impacts nearly every condition with a focus on the practical application to nursing care of patients. NEW! Expanded coverage of delegation includes additional Delegation Decisions boxes covering issues such as hypertension and postoperative patient care. NEW! Genetic Risk Alerts and Genetic Link headings highlight specific genetic issues related to body system assessments and disorders. NEW! Revised art program enhances the book's visual appeal and lends a more contemporary look throughout.

Scholars have recently begun to study collections of Byzantine historical excerpts as autonomous pieces of literature. This book focuses on a series of minor collections that have received little or no scholarly attention, including the Epitome of the Seventh Century, the Excerpta Anonymi (tenth century), the Excerpta Salmasiana (eighth to eleventh centuries), and the Excerpta Planudea (thirteenth century). Three aspects of these texts are analysed in detail: their

method of redaction, their literary structure, and their cultural and political function. Combining codicological, literary, and political analyses, this study contributes to a better understanding of the intertwining of knowledge and power, and suggests that these collections of historical excerpts should be seen as a Byzantine way of rewriting history.

The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

Magic, both benevolent (white) and malignant (black), has been practiced in the

British Isles since at least the Iron Age (800 BCE–CE 43). “Curse tablets”—metal plates inscribed with curses intended to harm specific people—date from the Roman Empire. The Anglo-Saxons who settled in England in the fifth and sixth centuries used ritual curses in documents, and wrote spells and charms. When they became Christians in the seventh century, the new “magicians” were saints, who performed miracles. When William of Normandy became king in 1066, there was a resurgence of belief in magic. The Church was able to quell the fear of magicians, but the Reformation saw its revival, with numerous witchcraft trials in the late 16th and 17th centuries.

#1 NEW YORK TIMES, WALL STREET JOURNAL, AND BOSTON GLOBE

BESTSELLER • One of the most acclaimed books of our time: an unforgettable memoir about a young woman who, kept out of school, leaves her survivalist family and goes on to earn a PhD from Cambridge University “Extraordinary . . . an act of courage and self-invention.”—The New York Times NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY THE NEW YORK TIMES BOOK REVIEW • ONE OF PRESIDENT BARACK OBAMA’S

FAVORITE BOOKS OF THE YEAR • BILL GATES’S HOLIDAY READING LIST • FINALIST: National Book Critics Circle’s Award In Autobiography and John Leonard Prize For Best First Book • PEN/Jean Stein Book Award • Los Angeles Times Book Prize Born to survivalists in the mountains of Idaho, Tara Westover was seventeen the first time she set foot in a classroom. Her family was so isolated from mainstream society that there was no one to ensure the children received an education, and no one to intervene when one of Tara’s older brothers became violent. When another brother got himself into college, Tara decided to try a new kind of life. Her quest for knowledge transformed her, taking her over oceans and across continents, to Harvard and to Cambridge University. Only then would she wonder if she’d traveled too far, if there was still a way home. “Beautiful and propulsive . . . Despite the singularity of [Westover’s] childhood, the questions her book poses are universal: How much of ourselves should we give to those we love? And how much must we betray them to grow up?”—Vogue NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Washington Post • O: The Oprah Magazine • Time • NPR • Good Morning America • San Francisco Chronicle • The Guardian • The Economist • Financial Times • Newsday • New York Post • theSkimm • Refinery29 • Bloomberg • Self • Real Simple • Town & Country • Bustle • Paste • Publishers Weekly • Library Journal • LibraryReads • Book Riot • Pamela Paul, KQED • New

*Narrative and Critical History of America*, Civic Research Institute, Inc.

Science is a living, organic activity, the meaning and understanding of which have evolved incrementally over human history. This book, the second in a roughly chronological series, explores the evolution of science from the advents of Christianity and Islam through the Middle Ages, focusing especially on the historical relationship between science and religion. Specific topics include technological innovations during the Middle Ages; Islamic science; the Crusades; Gothic cathedrals; and the founding of Western universities. Close attention is given to such figures as Paul the Apostle, Hippolytus, Lactantius, Cyril of Alexandria, Hypatia, Cosmas Indicopleustes, and the Prophet Mohammed. **Second Series** SLACK Incorporated History and Climate Change is a balanced and comprehensive overview of the links between climate and man's advance from early to modern times. It draws upon demographic, economic, urban, religious

and military perspectives. It is a synthesis of the many historical and scientific theories, which have arisen regarding man's progress through the ages. Central to the book is the question of whether climate variation is a fundamental trigger mechanism from which other historical sequences develop, or one amongst a number of other factors, decisive only when a regime/society is poised for change. Evidence for prolonged climate change is not that extensive. But it is clear that climatic variation has regularly played a part in historical development. Particular attention is here paid to Europe since AD 211. Cold and warmth, wetness and aridity can create contrary reactions within societies, which can be interpreted in vary different ways by scholars from differenct disciplines. Does climate change exacerbate famine and epidemics? Did climate fluctuation play a part in pivotal historical events such as the mass exodus of Hsuing-nu from China, the pressure of the Huns on the Romans and the genesis of the Crusades? Did the bitter Finnish winter of 1939-40 ensure the ultimate defeat of Hitler? These episodes, and many others

are discussed throughout the book in the authors distinctive style, with maps and photographs to illustrate the examples given.

Epp-Tiessen sheds light on the compositional history, structure, and theology of the book of Jeremiah by demonstrating that a large concentric unit of material focusing on true and false prophecy stands at the center of the book. This unit, titled "Concerning the Prophets" (23:9), utilizes the heritage of Jeremiah to contrast the nature of true and

false prophecy in order to warn the Second Temple community of the disastrous consequences of false prophecy and to highlight the saving potential of true prophecy. False prophecy leads to doom because it ignores the moral failings of the community, promises well-being in the face of catastrophe, and reinforces the misleading theological certainties of Judah's pre-587 way of life. In contrast, the true prophet Jeremiah challenges the faith community to embrace the physical and spiritual dislocation of the Babylonian destruction. Post-disaster life stands under the saving purposes of YHWH, but the only way forward is to learn the painful lessons of catastrophe and heed the prophetic summons to repent and embrace a Torah-based way of life.

**Freak the Mighty** Holt Rinehart & Winston  
Best-selling author Jackson Spielvogel has helped over one million students learn about the present by exploring the past. Spielvogel's engaging narrative weaves the political, economic, social, religious, intellectual, cultural, and military aspects of history into a gripping story that is as memorable as it is instructive. Updated to reflect current scholarship, **WESTERN CIVILIZATION**, 10th Edition, includes more than 150 maps and excerpts of more than 250 primary sources that enliven the past while introducing students to the source material of historical scholarship. Additionally, the text is illustrated with more

than 400 photographs that add visual context. A variety of pedagogical tools, including focus and critical thinking questions, primary source features with assignable questions, and end-of-chapter study aids, make this edition accessible to any learning style.
