Her family was so isolated from mainstream society that there was no one to ensure the children received an education, and no one to intervene when one of Tara ’ s older

brothers became violent. When another brother got himself into college, Tara decided to try a new kind of life. Her quest for knowledge transformed her, taking her over oceans and across continents, to Harvard and to Cambridge University. Only then would she wonder if she 'd traveled too far, if there was still a way home. " Beautiful and propulsive . . . YORK TIMES BESTSELLER LIST

_____ From the New
York Times bestselling author of
Deacon King Kong and The Good
Lord Bird, winner of the
National Book Award for Fiction,
came this modern classic that
Oprah.com calls one of the best
memoirs of a generation and that
launched James McBride's
literary career. As a boy in
Brooklyn's Red Hook projects,
James McBride knew his mother

was different. But when he asked her about it, she'd simply say 'I'm light-skinned.' Later he wondered if he was different too, and asked his mother if he was black or white. 'You're a human being! Educate yourself or you'll be a nobody!' she snapped back. And when James asked about God, she told him 'God is the color of water.' This is the remarkable story of an eccentric and determined woman: a rabbi's daughter, born in Poland and raised in the Deep South who fled to Harlem, married a black preacher, founded a Baptist church and put twelve children through college. A celebration of resilience, faith and forgiveness, *The Color of Water* is an eloquent exploration of what family really means.

Oftentimes, people look at
famous individuals and think
that such people are exempt
from the physical limitations
that bind us all as humans.
Unfortunately, many times
celebrities themselves think
this is true. A stark reminder
of this is the effects of
substance misuse that have

a background on each disorder or

the real humanity of the

with baseball icon Lou Gehrig

ALS, but truthfully believed
that he was still the luckiest

Little known facts are provided

like the subject has come alive
as a real fleshandblood person

book. A never before seen letter
from General George Patton is
presented. In this letter,
General Patton describes the

author's uncle as "brave." Why did Patton have a near obsession with bravery—both that of his soldiers and himself? Was it because of the fear and humiliation which Patton himself spent a lifetime overcoming as a result of his dyslexia?

In Western religious
traditions, God is
conventionally conceived as a
humanlike creator, lawgiver,
and king, a being both
accessible and actively
present in history. Yet there
is a concurrent and strong
tradition of a God who
actively hides. The two
traditions have led to a

tension between a God who is simultaneously accessible to humanity and yet inaccessible, and a God who is both immanent and transcendent, present and absent. Western esoteric, and mystical thinking capitalizes on the hidden and hiding God. He becomes the hallmark of the mystics, Gnostics, sages, and artists who attempt to make accessible to humans the God who is secreted away. 'Histories of the Hidden God' explores this tradition from antiquity to today. The focus is on three essential themes: the concealment of the hidden God; the human quest for the hidden God, and revelations of the hidden God.
