The Boeing 737 is a twin jet narrow-body airliner built by Boeing. At first, Boeing was making it to be a shorter, cheaper airliner than its 707 and 727. However, the 737 has become a family of nine different models. The number of passengers it can carry ranges from 85 to 215. [Boeing 737 - Simple English Wikipedia, the free encyclopedia](#)

The 737 Max crisis could destroy Boeing's plans for the ...

Boeing has made significant progress over the past several months in support of safely returning the 737 MAX to service as the company continues to work with the FAA and other global regulators on the process laid out for certifying the 737 MAX software and related training updates.

### BOEING 737: B737 FLIGHT CONTROL (ATA 27)

The Boeing 737 is the slowest commercial aircraft in the skies, creating a painful 5 1/2 to 6 hour flight, 30 minutes longer than flying on a widebody like Hawaiian's Boeing 767. United isn't alone- Alaska, American, Southwest and Delta all conspire to wedge passengers into these slow slugs on too lengthy of segments.
