
Chapter 3 The Biosphere Section 1 What Is Ecology

Eventually, you will extremely discover a supplementary experience and ability by spending more cash. yet when? complete you say yes that you require to get those every needs next having significantly cash? Why dont you try to get something basic in the beginning? Thats something that will guide you to understand even more in the region of the globe, experience, some places, bearing in mind history, amusement, and a lot more?

It is your certainly own become old to play a role reviewing habit. in the course of guides you could enjoy now is **Chapter 3 The Biosphere Section 1 What Is Ecology** below.

NOTES: CH 3- The Biosphere

The Earth as a System. The biosphere is the part of Earth where life exists. It is a thin layer at Earth's surface that extends from about 9 km above Earth's surface down to the bottom of the ocean. The biosphere is therefore made up of parts of the geosphere, the atmosphere, and the hydrosphere.

*Chapter 3 The Biosphere Section 3-1 Answer
Key*

The bio- sphere consists of the parts of the
planet in which all life exists. It includes land;
water; and air, or atmosphere. Ecology
includes the study of all the dif- ferent levels of
life, ranging from the indi- vidual organism to
the biosphere. Above the level of the individual
organism is the species.
