Mostly all modern-day web applications have some sort
of data storage system at the backend. For example, if
you take the case of a web shopping application, data
such as the price of an item would be stored in the
database. The Node js framework can work with
databases with both relational (such as ...

Interest on certain U.S. savings bonds is excluded from income
if the savings bonds are used to pay for qualified higher
education expenses or rolled over into a 529 college savings
plan, prepaid tuition plan or Coverdell education savings
account. The process for reporting a savings bond rollover can
