She was a poor Southern tobacco farmer who worked the same land as her slave ancestors, yet her cells—taken without her knowledge—became one of the most important tools in medicine: The first “immortal” human cells grown

in culture, which are still alive today, though she has been dead for more than sixty years. HeLa cells were vital for developing the polio vaccine; uncovered secrets of cancer, viruses, and the atom bomb's effects; helped lead to important advances like in vitro fertilization, cloning, and gene mapping; and have been bought and sold by the billions. Yet Henrietta Lacks remains virtually unknown, buried in an unmarked grave. Henrietta's family did not learn of her "immortality" until more than twenty years after her death, when scientists investigating HeLa began using her husband and children in research without informed consent. And though the cells had launched a

multimillion-dollar industry that sells human biological materials, her family never saw any of the profits. As Rebecca Skloot so brilliantly shows, the story of the Lacks family—past and present—is inextricably connected to the dark history of experimentation on African Americans, the birth of bioethics, and the legal battles over whether we control the stuff we are made of. Over the decade it took to uncover this story, Rebecca became enmeshed in the lives of the Lacks family—especially Henrietta's daughter Deborah. Deborah was consumed with questions: Had scientists cloned her mother? Had they killed her to harvest her cells? And if her mother was so important to medicine,

why couldn't her children afford health insurance? Intimate in feeling, astonishing in scope, and impossible to put down, *The Immortal Life of Henrietta Lacks* captures the beauty and drama of scientific discovery, as well as its human consequences.

"The Book Every 20-Something Should Read" Turning the big 3-0 is a milestone many women loath. There's this lie society has sold women that life ends at thirty because your twenties were the decade to make all your hopes and dreams a reality, and when the clock strikes twelve on your thirtieth birthday, your time is up! If it hasn't happened yet, it will never happen, so you should simply give up and settle. Olayinka Almaroof boldly challenges this lie with a new truth that says

thirty is not the end but just the beginning! Thirty is only dreadful if we are ill-prepared, but when we live wisely through our twenties, thirty is just the next stop on the elevator up! In Chapter 30, writer Olayinka Almaroof takes the concept of "paying it forward" into the literary realm, inviting readers to journey back through her twenties as she recounts thirty pivotal life lessons she learned. Grab your favorite girlfriends and journey through this young woman's memories through three realms: Life, Love, and Spirituality. "I wrote this book in hopes that you would learn from my mistakes and benefit from the wisdom I gained along the way. I am still learning every day, but I wanted to share the life lessons I wish someone would have shared with me. For that girl who never had wise big sisters to hold her hand and guide her, I want this book to be a symbol of my hand intertwined with yours as you journey through these pages. It is my belief that we don't have

to only learn from our personal life experiences or hardships; through community and sisterhood we should be able to learn through women who have braved the journey before us." Chapter 30 is part of the 'Wisdom Collection' written by author, Olayinka Almaroof. Check out the second installation to this collection 'The Little Black Book of Wisdom'. Available everywhere books are sold. Addition Information: Chapter 30 can also be used as a study guide for book clubs and Bible studies. The text contains study questions at the end of each chapter for discussion and in-depth reflection.
