This book takes an extensive look at the many different types of users and cultures that comprise the popular social media platform Tumblr. Though it does not receive nearly as much attention as other social media such as Twitter or Facebook, Tumblr and its users have been hugely influential in creating and shifting popular culture, especially progressive youth culture, with the New York Times referring to 2014 as the dawning of the "age of Tumblr activism." Perfect for those unfamiliar with the platform as well as those who grew up on it, this volume contains essays and artwork that span many different topics: fandom; platform structure and design; race, gender and sexuality, including queer and trans identities; aesthetics; disability and mental health; and social media privacy and ethics. An entire generation of young people that is now beginning to influence mass culture and politics came of age on Tumblr, and this volume is an indispensable guide to the many ways this platform works.

NCLEX-PN Content Review Guide Oxford University Press

Although the relationship between international human rights law
and the law of armed conflict has been the subject of significant
recent academic discussion, there remains a lack of comprehensive
guidance in identifying the law applicable to specific situations faced
by military forces. Providing guidance for armed forces and
practitioners on the detailed application of international human
rights law during armed conflict, this book fills that gap. Part 1 of the
volume details foundational information relating to international
human rights law and human rights institutions, the types of
operations that States' armed forces engage in, and how the law of
armed conflict and international human rights law apply to regulate
different situations. Part 2 provides practical guidance as to the
legal regulation of specific situations, including discussion of the
conduct of hostilities, detention operations, humanitarian
assistance, cyber operations, and investigations. This book is the
result of an in-depth process involving both academic and
practitioner experts in the law of armed conflict and international
human rights law who were convened in meetings at Chatham
House chaired by Elizabeth Wilmshurst, Distinguished Fellow at
Chatham House. The group included Professor Françoise
Hampson, Essex University; Professor Dapo Akande, Oxford
University; Charles Garraway, Fellow at Essex University; Professor
Noam Lubell, Essex University; Michael Meyer, British Red Cross;
and Daragh Murray, Lecturer at Essex University.
