Chapter 5 of Poor Economics,
“Pak Sudarno’s Big family”
focuses on population control

in the developing world and the family dynamics relating to the population size. It asks the question of “whether the poor really want such large families” and the reasoning behind such high fertility rates within these societies (128).

This chapter provides a preliminary sketch of the most important macroeconomic issues: Economics: Chapter 5 1. SUPPLY Chapter 5 2. Section 1 Understanding Supply 3. What is Supply? Supply is the amount of goods available. Law of Supply – As the price of a good increases, producers will offer more of it and

as the price decreases, they will offer less. This includes two movements:
Individual firms changing their level of production
Firms entering or exiting the market
