Written in the year of 1948, the author swapped the last two digits while describing a future totalitarian society

where the minds, attitudes and actions of the subjects are thoroughly scrutinized by the "Thought Police", suspected dissidents tracked down and where the worship of the mythical party leader Big Brother is forced upon the masses. Court Management Study American Bar Association The narrative around flexible

working needs flipping. After being able to work flexibly for 14 of her 23 years in education across teaching, school leadership and MAT leadership roles, Emma Turner realised that sadly, she's actually in the minority and has just been kinda lucky. Across the education system, although there is a recent groundswell of support for developing more life friendly, innovative and flexi ways of working, there are still a great deal of misconceptions, biases and prejudices about flexible working and flexible workers. Through her 'playlist' of educational floor

fillers, Emma explores some of the successful ways in which flexible working can be viewed by both employers and employees for staff at all levels, including senior and school leadership. Designed to open up the flexible working conversation, this book outlines what can work, what has worked and what could work. This new way of viewing the flexi narrative from an experienced flex-pert encourages all to revisit our views on flexible working. TM. American Bar Association
