This volume brings together
more than 50 documents

which examine foreign policy not only in terms of leaders and states, but also through social movements, cultures, ideas, and images, to provide comprehensive understanding of how Americans have interacted with the wider world since 1898. Draws together over 50 primary documents to give readers a first-hand account of the people and events that shaped the foreign policy of the United States. Incorporates documents relating not only to leaders and states, but also to social movements, cultures, ideas, and images. Highlights the diverse range of contributors to debates about American

foreign policy, from presidents to protesters, students to singers. Includes a comprehensive introduction to the subject and headnotes for each document written by the editor, as well as a bibliography for further study.

Predicting the Presidency
Cq Press

The **Obama Quiz Book** includes questions that are educational and informative. The questions have been carefully compiled by Williamson using materials from President Barack Obama's novels; newspapers; magazines;

Library of Congress collections and other governmental resources. There are two questions on each page; the answers to the questions, along with information sources and additional explanatory notes are printed on the back of each page. The first chapter presents questions about the United States Presidency. The questions and answers in Chapter 2 were selected from the information gathered about President Obama's

childhood. President Obama's college years are featured in Chapter 3. President Obama's years as a community organizer in Chicago, Illinois provides the material for questions in Chapter 4. Chapter 5 highlights President Obama's days at Harvard Law School. The years that President Obama spent as a University of Chicago Lecturer, Civil Rights attorney, and Chicago politician can be found in Chapter 6. Chapter 7 provides details about the

2008 Presidential Campaign. President Obama's books, Grammy Awards as well as the President's speeches provide the material for Chapter 8. First Lady Michelle Obama and members of her family are featured in Chapter 9. Quotations from President Obama's friends; family and supporters can be found in Chapter 10. Also included in the Obama Quiz Book is an essay entitled, What President Barack Obama's Inauguration Means to Me

written Brenda Truedell-Bell, a renowned African American Scientist. The Obama Quiz Book is meant for a diverse readership. This quiz book contains questions not only about President Obama, but the United States Presidency; United States Senate; United States electoral process and the 2008 Presidential Campaign. Now you can have the answers to some of these questions at your fingertips in the Obama Quiz Book. [Professional Pathways](#)

to the Presidency CQ contends that the Washington-based Press increasingly partisan journalists, Williams In Honest Numbers and U.S. political documents the steady Democracy, Walter environment is deformation of social Williams offers a vitiating both policy analysis under revealing history of "honest numbers" – the pressure of policy analysis in the data used to ideological politics the federal direct public policy waged by both the government and a – and, more executive and scorching critique of importantly, honest legislative branches. what's wrong with analysts, Beginning with the social policy particularly in the Reagan era and analysis today. White House. Drawing continuing into Williams, a policy heavily on candid off-Clinton's tenure, insider who witnessed the-record interviews Williams focuses on the birth of domestic with political the presidents' policy analysis executives, career growing penchant to during the Johnson civil servants, misuse and hide administration, elected officials and numbers provided by

their own analysts to assist in major policy decisions. Honest Numbers and Democracy is the first book to examine in-depth the impact of the electronic revolution, its information overload, and rampant public distrust of the federal government's data on the practice of policy analysis. A hard-hitting account of the factors threatening the credibility of the

policy-making process, this book will be required reading for policy professionals, presidential watchers, and anyone interested in the future of U.S. democracy. **The Presidential Veto** John Wiley & Sons Roy Jenkins brought great talent to Europe's top job. He played a key role in re-launching European monetary integration, winning the right to attend the new global summits, and

smoothing Greece's path to EC membership. But he fell short of other targets. Commission reform remained elusive, as did an improvement of the UK's troubled relationship with the EC. Indeed the row over Britain's contribution to the EC budget, meant that Britain's position in Europe was as difficult when he left Brussels as it had been when he arrived. This study will look at how Jenkins approached his role, identifying his priorities, examining his working methods, and exploring his

rapport with the European and international statesmen with whom he had to work. In the process, the book will shed light on the nature of the job, on Jenkins' own talents and limitations, and on the European Community as it struggled with the global economic crisis of the 1970s. Profiles In Courage Walter de Gruyter Kessel (Ohio State University, emeritus) draws on the presidencies of Eisenhower through Clinton to examine the president in the context of the institutional presidency and the

political environment. The role and importance of the White House staff is emphasized, and the relationships between the White House and Congress and the media are examined. Kessel also evaluates each contemporary president based on their successes and failures in policy. c. Book News Inc. The Global 2000 Report to the President--entering the Twenty-first Century: The technical report Oxford University Press At a moment in which interest in political theology is rising, acceptance of a public role for religion is declining, and cynicism regarding both political and religious institutions is overflowing,

this book investigates the possibilities and constraints of a Christian political theology that can meaningfully mediate Scripture, doctrine, and political reality. In critical dialogue with political theologians and political philosophers past and present, we explore the origins, meaning, and purpose of Christian political theology in an age of growing discontent with the once-impregnable liberal democratic order of yesteryear. Approaching politics as both art and science, this book lays a challenge at the feet of political theologians to offer a theological account of politics that is genuinely illuminating of political reality and efficacious for the faithful who seek to operate within

it.
Give Me Liberty! CQ Press
This is the first modern study of the veto. In addition to tracing the genesis and historical evolution from Ancient Rome, through the ultimate inclusion in the Constitution, it also explores the veto's consequences for modern presidents. In doing so, Spitzer promotes a key argument about the relation between the veto power and the Presidency -- namely, that the rise of the veto power, beginning with the first Chief Executive, is symptomatic of the rise of the strong modern Presidency, and has in fact been a major tool of Presidency-building. A special and revealing irony of the veto power is seen in the finding

that, despite its monarchical roots and anti-majoritarian nature, the veto has become a key vehicle for presidents to appeal directly to, and on behalf of, the people. Thus, the veto's utility for presidents arises not only as a power to use against Congress, but also as a symbolic, plebiscitary tool.

The Presidency and Political Science SUNY Press

A full understanding of the institution of the American presidency requires us to examine how it developed from the founding to the present. This developmental lens, analyzing how historical turns have shaped the modern institution, allows for a richer, more nuanced understanding beyond the current

newspaper headlines. The Development of the American Presidency pays great attention to that historical weight but is organized by the topics and concepts relevant to political science, with the constitutional origins and political development of the presidency its central focus. Through comprehensive and in-depth coverage, this text looks at how the presidency has evolved in relation to the public, to Congress, to the Executive branch, and to the law, showing at every step how different aspects of the presidency have followed distinct trajectories of change. All the while, Ellis illustrates the institutional relationships and tensions through stories about particular individuals and specific

political conflicts. Ellis's own classroom pedagogy of promoting active learning and critical thinking is well reflected in these pages. Each chapter begins with a narrative account of some illustrative puzzle that brings to life a central concept. A wealth of photos, figures, and tables allow for the visual presentations of concepts. A companion website not only acts as a further resources base—directing students to primary documents, newspapers, and data sources—but also presents interactive timelines and practice quizzes to help students master the book's lessons. The second edition a new chapter on unilateral powers that brings greater attention to domestic policymaking.

Russian Politics and Presidential Power CQ Press Looking beyond the individual office holders to the office itself, this Fourth Edition of *Vital Statistics on the Presidency* covers George Washington ' s tenure through the 2012 election. The book ' s expansive view of the presidency allows readers to recognize major themes across administrations and to reach overall conclusions about the nature of the institution and its future. The illuminating data is put into context by

thoughtful essays explaining key statistical patterns, making this edition an intriguing and comprehensive reference to important patterns throughout the history of the presidency. *The Presidency and Economic Policy* Georgetown University Press Comments on the previous editions: "Hess brings not only first-rate credentials, but a cool, dispassionate perspective, an incisive analytical approach, and a willingness to stick his neck out in making judgments...."—*American Political Science Review* "This book is a timely and useful launching device for

classroom or civic discussions of this important political process."— Perspective "In barely over a hundred pages of smooth and easy prose, Hess manages to cover a large number of campaign topics. Refusing to get bogged down in mechanics or trivia, he constantly reverts to the connection between the character of the electoral process and the caliber of the men who flourish in it."— Polity Presidential Leadership in Public Opinion SUNY Press Beyond Persuasion is the first systematic, multi-administration study of presidential power and

influence. Moving beyond Richard Neustadt's Presidential Power, this book offers a model of presidential power that incorporates personal bargaining effectiveness with the structural imperative of efficient White House organization. Drawing upon a systematic analysis of presidents from Johnson to Reagan, Kerbel finds common patterns of organizational structure and bargaining behavior in their successful domestic policy initiatives. The path to power is detailed

through comparative insights on the Carter and Reagan administrations, which prove to be remarkably similar in critical respects despite popular perceptions to the contrary. Kerbel then considers the relative importance of presidential behavior to contextual factors beyond the president's control, offering insight into the way changes in economic and political conditions have hampered or improved recent presidential efforts, despite presidential attempts to organize and persuade.

Analysis includes the first year of the Bush administration, and the possibilities for power in the contemporary presidency are discussed.

Impact Evaluation in Practice, Second Edition CQ Press

Presidential hopefuls frequently claim they are qualified because their job experience is the same as a great president. However they ignore the failed presidents who shared the same pathway.

This book evaluates all the presidents systematically to determine how prior professional experience influences presidential performance.

Honest Numbers and Democracy
Routledge

The leading text in the U.S. survey course.

Presidents, the Presidency, and the Political Environment
Springer
Nature

Well-known scholars and practitioners of Congressional-Presidential relations come together to explore both branches of government and what unites as well as divides them. Highlights include chapters on budgetary politics in a time of deep deficit, the impacts of campaign message and election mandates, veto bargaining, and the making of U.S. foreign policy over four decades. Case studies of budget battles, trade wars, and the war in Iraq lend

concrete detail to political theory. First-hand experience on the Hill and in the Oval Office--and everywhere in between--is reflected in each chapter. Visit our website for sample chapters!

The Presidency and the Challenge of Democracy Obama Quiz Book

Get the most up-to-date coverage and analysis of the presidency.

Never losing sight of the foundations of the office, *The Politics of the Presidency* maintains a balance between historical context and contemporary scholarship on the executive branch, providing a solid foundation for any presidency course. In this Revised Tenth Edition, bestselling authors Joseph A. Pika, John Anthony Maltese,

and Andrew Rudalevige present a thorough analysis of the change and continuity following the November 2020 presidential election and Biden administration.

Presidential Policymaking: An End-of-century Assessment
Springer

Describing how American presidents present themselves and their governments to the people, this text analyzes the entire staging of a presidential appearance. Focusing on the modern presidents, from Truman to Bush, the author's research is rooted in the Public Papers of each president.

Obama Quiz Book Springer
Attributes the failure of the modern presidency to the development of a political system that inherently impedes creative leadership, and offers prescriptive measures to restore the governing capacity of the president. This book explores the failure of the modern American presidency, a failure the author attributes to the development of a political system that impedes creative leadership. The American presidency, Gary L. Rose argues, is under siege. Surrounded and blockaded by a reactionary Congress, an entrenched

bureaucracy, an aggressive media, lobbyists, political action committees, and special interest groups, American presidents fail not because of a lack of ability or character but because of the political system and style of politics inside the Beltway. Rose ascribes this emergence of a political system that obstructs presidential leadership to the decline of political parties as electoral and governing mechanisms. As political parties have declined, presidents have lost vital political connections that historically have enhanced their capacity to lead. He presents a variety of prescriptive

measures, including political-party and legal reform, that have the potential to restore political parties and the governing capacity of the presidency. "This book fills an important gap in the literature on both the presidency and parties. The most original and provocative parts of the book concern the author's proposals for reforming the national conventions in order to revitalize them as decision-making, federal bodies, and thus to simultaneously de-emphasize the role of candidate-centered, party weakening primaries. Also, I am intrigued by the fact that Rose elaborates on the role of

patronage in party-building and explores patronage reform for the purpose of both strengthening the parties and helping presidents govern more effectively". -- Sean J. Savage, Saint Mary's College "The unique quality of this book is the manner in which it presents the problems of the presidency and the exciting manner in which it chooses among the various reforms presented. The result is a very readable and stimulating book on the presidency. It will take its place with Cronin's *The State of the Presidency* and *Rethinking the Presidency* as an important work in presidential

studies, but it will stand alone because of its critical and prescriptive character". -- Robert D. Loevy, Colorado College
[The Symbolic Presidency](#)

The second edition of the *Impact Evaluation in Practice* handbook is a comprehensive and accessible introduction to impact evaluation for policy makers and development practitioners. First published in 2011, it has been used widely across the development and academic communities. The book incorporates real-world examples to present practical guidelines for designing and

implementing impact evaluations. Readers will gain an understanding of impact evaluations and the best ways to use them to design evidence-based policies and programs. The updated version covers the newest techniques for evaluating programs and includes state-of-the-art implementation advice, as well as an expanded set of examples and case studies that draw on recent development challenges. It also includes new material on research ethics and partnerships to conduct impact evaluation. The handbook is divided into four sections: Part One discusses what to evaluate

and why; Part Two presents the main impact evaluation methods; Part Three addresses how to manage impact evaluations; Part Four reviews impact evaluation sampling and data collection. Case studies illustrate different applications of impact evaluations. The book links to complementary instructional material available online, including an applied case as well as questions and answers. The updated second edition will be a valuable resource for the international development community, universities, and policy makers looking to build better evidence around what

works in development. *Beyond Persuasion* Rowman & Littlefield
The Presidency and the Economic Policy offers an update on how economic issues have developed and evolved since the first version of the book was published in 1994. This book addresses the extent to which the president influences the domestic and global economy, manages and coordinates the economic policymaking process, and determines various economic issues on the national public policy agenda.
