Pyramids explains why, how, and by whom the Egyptian pyramids were built. It also explains how bodies were prepared for burial inside the pyramids. The book discusses the importance of studying the pyramids as a way of learning about ancient Egyptians and their culture.

Age-Sex and Population Pyramids

Pyramids are buildings mostly constructed out of stone in ancient times, which have a pyramid shape. The simplest ones have a square or rectangular base and four triangular sides which meet in a peak at the top. With this shape, most of the building's weight is at the bottom, which means that pyramids are very stable and could be built very high.
