The Kingdome,
John (“Jack”)
Christiansen’s best-
known work, was
the largest

freestanding concrete dome in the world. Built amid public controversy, the multipurpose arena was designed to stand for a thousand years but was demolished in a great cloud of dust after less than a quarter century. Many know the fate of Seattle's iconic dome, but fewer are familiar with its innovative structural engineer, Jack Christiansen (1927–2017), and his significant contribution to Pacific Northwest and modernist architecture. Christiansen designed more than a hundred projects in the region: public

schools and gymnasiums, sculptural church spaces, many of the Seattle Center's 1962 World's Fair buildings, and the Museum of Flight's vast glass roof all reflect his expressive ideas. Inspired by Northwest topography and drawn to the region's mountains and profound natural landscapes, Christiansen employed hyperbolic paraboloid forms, barrel-vault structures, and efficient modular construction to echo and complement the forms he loved in nature. Notably, he became an

enthusiastic proponent of using thin shell concrete—the Kingdome being the most prominent example—to create inexpensive, utilitarian space on a large scale. Tyler Sprague places Christiansen within a global cohort of thin shell engineer-designers, exploring the use of a remarkable structural medium known for its minimal use of material, architecturally expressive forms, and long-span capability. Examining Christiansen's creative design and engineering work, Sprague, who

Christiansen
extensively,
illuminates his
legacy of graceful,

catalogs every official interstate alliance signed from the Peace of

Westphalia in 1648 through the early

twenty-first century, ranking it among the most thorough and accessible reviews of formal military treaties ever

published. Maps and introductions showcase the effects of alliances on the region or

international system in century-specific chapters, while individual narratives and summaries of alliances

simultaneously provide basic information, such as

dates and member states, as well as essential insights on the conditions that prompted the agreement.

Additionally, separate and/or secret articles are highlighted for additional context and interest.

Supplementary features of this two-volume set include: A timeline cataloging major events in political and military history Guides listing allegiances by region and by century An alphabetical treaty index Maps

illustrating political boundaries across the centuries International Military Alliances is an indispensable resource for any library serving students of law, politics, history, and military science.

The 31st chapter of
the Book of
Proverbs changes
the way we look at
women in Old
Testament times.
The Proverbs 31
woman was not a
second-class
citizen. She was an
equal partner to her
loving husband, a
cherished mother to
her children, and a
successful business
woman. She was
the wife of a
prominent man, and

she helped those less
fortunate. She
created a lovely
home for her family,
made them beautiful
clothing, and
prepared gourmet
meals. Was she
some sort of a
Biblical
Superwoman? Not
at all—she was a well-
rounded woman
who had a sense of
priorities and still
found time for
herself. Although
she lived three
thousand years ago,
the Proverbs 31
woman is a relevant
role model for
today's woman. The
Proverbs Principle is
a blueprint for your
way of life, based
upon the role model
of the Proverbs 31
woman. But it goes
much further than

the Biblical passages. It offers ways to live a more fulfilling life in today's busy world, and covers every aspect of a woman's life—her relationship with God...marriage and motherhood...family and personal finance s...self-improvement ...health, beauty and fashion...homemaking and decorating...charity... career...in thirty-one chapters!

Becoming Big League is the story of Seattle's relationship with

major league baseball from the 1962 World's Fair to the completion of the Kingdome in 1976 and beyond. Bill Mullins focuses on the acquisition and loss, after only one year, of the Seattle Pilots and documents their on-the-field exploits in lively play-by-play sections. The Pilots' underfunded ownership, led by Seattle's Dewey and Max Soriano and William Daley of Cleveland, struggled to make the team a success. They were savvy baseball men, but they made

mistakes and wrangled with the city. By the end of the first season, the team was in bankruptcy. The Pilots were sold to a contingent from Milwaukee led by Bud Selig, who moved the franchise to Wisconsin and rechristened the team the Brewers. Becoming Big League describes the character of Seattle in the 1960s and 1970s, explains how the operation of a major league baseball franchise fits into the life of a city, charts Seattle's long history of fraught

stadium politics, and examines the business of baseball. Watch the trailer: http://www.youtube.com/watch?v=7hwhl5sLoQs&list=UUge4MONgLFncQ1w1C_BnHcw&index=1&feature=plcp

This book is an attempt to make sense of over 40 years of Actual Money printing; and the ugly rise of Credit Money. This book notes that the Actual Money Supply doubles every ten years instead of

growing with population growth giving rise to Inflation. In conclusion this book gives information as to where such Actual Money and Credit Money currently resides and where the excesses were. This book is written to give you, the reader, a general sense of what has happened to money in general.

Isabel Valdes' most recent book features a completely new analysis of Latino segments, based on how long Latinos

have lived in the U.S. culture. These new segments provide an understanding not just of acculturation, but of how the length of time in country affects the way companies should position their products for Latinos. These descriptions will help you quantify and differentiate among people who are recent arrivals in the U.S., those who are third generation and beyond, and those who are second generation. In reality, a huge share of the Latino population was born in the United States and the majority of babies born today in the U.S. have Latino parents. Hispanic Purchasing PowerThe Selig Center for Economic Growth at the University of Georgia estimates that

U.S. Hispanic purchasing power increased dramatically during the 1990s and has continued to rise into the 21st century, from \$212 billion in 1990 to \$736 billion in 2005, a 347 percent increase over the 15 year period. By 2010, Jeffrey Humphrey, director of the Selig Center, projects Hispanic buying power will top \$1 trillion. By 2050, some estimates place the value of Hispanic consumer marketplace between \$2.5 and \$3.6 trillion. With exciting new case studies and a focus on grassroots marketing and the internet, Ms. Valdes gives you the data and analysis you need to move your Latino marketing to the next level.

Joe McCarthy was

McCarthy's mother

that he could make

baseball. She

relented, and Joseph Vincent McCarthy embarked on a career that ranks him among the greatest managers ever. In 24 years his teams took nine pennants, seven World Series titles, and never finished lower than fourth. This biography of Joe McCarthy details the 90-year life of one of the greatest managers in baseball's history. Baseball was McCarthy's ticket out of a working-class existence in Germantown, Pennsylvania, taking him to college, the minor leagues, managerial stints in baseball's backwaters, and on to remarkable years with the Yankees, Cubs and Red Sox—years filled with triumph and heartbreak. Seven championships and the highest managerial winning percentage ever earned him entry to the Hall of Fame, but McCarthy will always be remembered for his deft handling of his players. McCarthy's ability to handle even "unmanageable" players won him the respect of all. His effect on the lives of his young charges was, in his mind, his greatest legacy.
