Isabel Valdes' most recent book features a completely new analysis of Latino segments, based on how long Latinos have lived in the U.S. culture. These new segments provide an understanding not just of acculturation, but of how the length of time in country affects the way companies should position their products for Latinos. These descriptions will help you quantify and differentiate among people who are recent arrivals in the U.S., those who are third generation and beyond, and those who are second generation. In reality, a huge share of the Latino population was born in the United States and the majority of babies born today in the U.S. have Latino parents. Hispanic Purchasing Power The Selig Center for Economic Growth at the University of Georgia estimates that U.S. Hispanic purchasing power increased dramatically during the 1990s and has continued to rise into the 21st century, from \$212 billion in 1990 to \$736 billion in 2005, a 347 percent increase over the 15 year period. By 2010, Jeffrey Humphrey, director of the Selig Center, projects Hispanic buying power will top \$1 trillion. By 2050, some estimates place the value of Hispanic consumer marketplace between \$2.5 and \$3.6 trillion. With exciting new case studies and a focus on grassroots marketing and the internet, Ms. Valdes gives you the data and analysis you need to move your Latino marketing to the next level.

The Bloodless Revolution Council for Technology & the Individual The 31st chapter of the Book of Proverbs changes the way we look at women in Old Testament times. The Proverbs 31 woman was not a second-class citizen. She was an equal partner to her loving husband, a cherished mother to her children, and a successful business woman. She was the wife of a prominent man, and she helped those less fortunate. She created a lovely home for her family, made them beautiful clothing, and prepared gourmet meals. Was she some sort of a Biblical Superwoman? Not at all—she was a well-rounded woman who had a sense of priorities and still found time for herself. Although she lived three thousand years ago, the Proverbs 31 woman is a relevant role model for today's woman. The Proverbs Principle is a blueprint for your way of life, based upon the role model of the Proverbs 31 woman. But it goes much further than the Biblical passages. It offers ways to live a more fulfilling life in today's busy world, and covers every aspect of a woman's life—her relationship with God...marriage and motherhood...family and personal finances...self-improvement...health, beauty and fashion...homemaking and decorating...charity... career...in thirty-one chapters!

Joe McCarthy was headed towards a career as a plumber—until the parish priest intervened, and convinced McCarthy's mother that he could make more of himself in baseball. She relented, and Joseph Vincent McCarthy embarked on a career that ranks him among the greatest managers ever. In 24 years his teams took nine pennants, seven World Series titles, and never finished lower than fourth. This biography of Joe McCarthy details the 90-year life of one of the greatest managers in baseball's history. Baseball was McCarthy's ticket out of a working-class existence in Germantown, Pennsylvania, taking him to college, the minor leagues, managerial stints in baseball's backwaters, and on to remarkable years with the Yankees, Cubs and Red Sox—years filled with triumph and

heartbreak. Seven championships and the highest managerial winning percentage ever earned him entry to the Hall of Fame, but McCarthy will always be remembered for his deft handling of his players. McCarthy's ability to handle even "unmanageable" players won him the respect of all. His effect on the lives of his young charges was, in his mind, his greatest legacy.
