Char-Broil's older Char-Broil RED® Series grills feature a patented deep trough design which directionally radiates and transmits heat to barbecue food without exposure to flame. The troughs are heated by "T" shaped burners which are located under the trough. Below is a list of the Char-Broil RED Series parts we inventory.

Use the one easiest for you. (A) Bend a stiff wire (a light weight coat hanger works well) into a small hook. Run the hook through each burner tube several times. (B) Use a narrow bottle brush with a flexible handle (do not use a brass wire brush), run the brush through each burner tube several times.
