Some men won't take no for an answer. And some women might find this flattering, being asked out over and over again by a man determined to have you. But not me. Not that the man in question isn't sexy as sin, funny as hell and charming as they get. Because he is. Sometimes you just can't allow yourself to be interested in someone for other reasons, other variables. This is one of those times. Saxon Tate is my best friend's ex-boyfriend. He cheated on her. He could possibly cheat again. That's three strikes. He's out.

Critical Theory Today is the essential introduction to contemporary critical theory. It provides clear, simple explanations and concrete examples of complex concepts, making a wide variety of commonly used critical theories accessible to novices without sacrificing any theoretical rigor or thoroughness. This new edition provides in-depth coverage of the most common approaches to literary analysis

today: feminism, psychoanalysis, Marxism, reader-response theory, new criticism, structuralism and semiotics, deconstruction, new historicism, cultural criticism, lesbian/gay/queer theory, African American criticism, and postcolonial criticism. The chapters provide an extended explanation of each theory, using examples from everyday life, popular culture, and literary texts; a list of specific questions critics who use that theory ask about literary texts; an interpretation of F. Scott Fitzgerald's *The Great Gatsby* through the lens of each theory; a list of questions for further practice to guide

readers in applying each theory to different literary works; and a bibliography of primary and secondary works for further reading.

Attempting to bridge the gap between specialised scholarship in the humanistic disciplines and an interdisciplinary project of cultural analysis, Mieke Bal has written an intellectual travel guide that charts the course 'beyond' cultural studies. As with any guide, it can be used in a number of ways and the reader can follow or willfully ignore any of the paths it maps or signposts. Bal's focus for this book is the idea that interdisciplinarity in the humanities - necessary, exciting, serious - must seek its heuristic and methodological basis in

concepts rather than its methods. Concepts are not grids to put over an object. The counterpart of any given concept is the cultural text or work or 'thing' that constitutes the object of analysis. No concept is meaningful for cultural analysis unless it helps us to understand the object better on its own terms. Bal offers the reader a sustained theoretical reflection on how to 'do' cultural analysis through a tentative practice of doing just that. This offers a concrete practice to theoretical constructs, and allows the proposed method more accessibility. Please note: illustrations have been

removed from the ebook at the request of the rightsholder. **Kade Simon and Schuster** Everyone has secrets. Finally, I had a fresh start. I knew no one. I could be anyone, or so I thought.
