Underneath that beautiful yellow body is a TCI Engineering 55-59 Chevy Pickup chassis that's been expertly engineered to work as an independent front suspension and four-link rear. The four-link is designed to allow proper movement of the Currie 9-inch rear for proper road carving while the independent front allows for a modern ride with minimal bump steer at its proper height.

Total Cost Involved Engineering - Hot Rods Suspension ...

Chassis Engineering is a premier manufacturer of suspension, driveline, and chassis parts and systems designed to meet the needs of hot rodders, drag racers, and performance enthusiasts. During the past three decades, Chassis Engineering was active in all kinds of drag races from Top Sportsman and Pro Mod to Import racing and E.T. Bracket racing.

Chassis Engineering - drag racing parts, drag race ...

Chassis Engineering was also a jumping off point, a foundation for further study. I delved deeper into the topics covered in "Chassis Engineering" by purchasing specialty books, but whenever I needed a reminder of how a car behaves, I would open my trusty copy of this book. The book is laid out in a format that is easy to follow. The essentials of vehicle handling are discussed first, which ...
