Football A Slightly Better World  
Women in Asia are on the move.  
The migration of women from  
village to city has increased  
dramatically in the past decade,  
and many of these new migrants  
are young single women seeking  
jobs. In several Asian countries,  
women migrants now outnumber  
men by a substantial margin.

Along with the physical  
movement from rural to urban  
areas come new roles

Two Philadelphia detectives  
become unlikely partners in  
the tough 25th district.

Enoch (Buck) Rogers, a

young rookie from a  
privileged life in Philly's  
prestigious Main Line, and  
Luciano (Luca) Borrelli, a  
seasoned, cigar-chomping  
goombah a la The  
Sopranos. Buck's life is less  
than ideal. He's recently  
divorced, the relationship  
with his parents is, at best,  
strained, and his new  
lieutenant is always on his  
back. The two joys in his life  
are his job and his former  
partner-in-uniform and  
current lover, La-Teesha, a  
black policewoman who  
takes not only her job  
seriously, but also gourmet

food and bedroom antics! As  
for Luca, he befriends and  
delights everyone he meets.  
His cell phone rings  
seemingly nonstop, and  
Buck can't help but believe  
his new colleague knows  
virtually everyone in  
Philadelphia. I hope you  
enjoy the story and how  
these two "partners-in-crime"  
bond, and pledge to make  
this a slightly better world.

The DOOM PATROL was certainly one of the more unusual and most fondly remembered of DC's 1960s titles -- with more of a focus on the personality of the characters themselves. In this third volume we see a new unofficial member, a wedding and a very early DC crossover with The Challengers of the Unknown

Are you harnessing the power of a journal? If you are going through life right now feeling like everything is out of control or that things are not happening

the way you planned, you need a journal. I don't mean to be too direct, but it is time for you to discover why you feel the way you do and then figure out what to do about it. Or you can just write stuff in it! The great thing about a lined journal is you can make it into anything you want. A day timer, travel journal, diary, notebook for school, etc. If you need to write something down, a journal is the tool you need. If you want to use it for more

than just a notepad then keep reading. Benefits Of Keeping A Journal Almost every successful person seems to have kept a journal in one form or another. Success in this case is not defined by money but overall happiness. Whether or not they called it journaling doesn't matter as they kept a record of their goals, success, failures, feelings and their daily life. Your journal contains the answers to your most burning questions. It is

---

literally the best self-help book you could ever read because it is all about you. Just some of the benefits of journaling are: Allows you to reflect on your life and the changes you are choosing to make or not make Clarifies your thinking and as Tony Robbins says "Clarity is Power" Houses all your million dollar ideas that normally get lost in all the noise of life Exposes repeated patterns of behaviors that get you the results you DON'T want

Acts as a bucket for you to brain dump in - a cluttered mind leads to a disorganized life Revisits daily situations giving you a chance to look at it with a different perspective Doesn't crash and lose everything you put into it like electronics (just like electronics though don't get it wet) You may want to keep multiple journals. One that contains your truest and most secret feelings that you guard heavily, but need a way to express. Another that

contains all those fantastic ideas, dreams and awesome goals. Maybe just something you doodle in. No matter how you use it getting into the daily habit of journaling has the potential to improve the quality of your life. How To Use A journal Let's look past the simple fact you know how to physically write in a journal and dig into how to actually use your journal. It might contain all the secrets to life's biggest problems but unless you know how to

---

uncover those secrets they stay hidden away in your words. Let the words flow from the heart and be filled with emotions, no holdbacks Make a daily journaling schedule. Each and every day take the time to record your thoughts morning and night. If you love to type notes into your phone all day transfer them to your journal after. Sit in a quiet spot and allow yourself to be judgement free. Your journal is not a reason to turn yourself into an

emotional punching bag. Start small. You do not need to write a specific number of words. Just the right amount of honest words that let you feel a sense of being free from negativity and energized with possibility. If you write in your journal like someone is going to read it, you will ever allow yourself to fully express what needs to be expressed. Write like no one will ever read it because it is likely no one ever will unless you want

them to. Write how you loved something, were mad at someone, wished something was different or anything you need to. Just do it. Start today writing in your journal. You could even put "Today I bought this awesome journal and will recommend all my friends do the same." Wink Wink Scroll up and hit the add to cart button now. The game of American football

may be the greatest team sport that exists. It epitomizes the need of a "team" first approach to achieve the desired success. Success is often measured as the hoisting of a championship trophy, which involved a journey that required discipline, perseverance, sacrifice, and hard work. These traits are the backbone of success in football, but more importantly they are the backbone or blueprint for success in life. The Science of American Football provides an in-depth discussion on the physiology of the game of American football, including the physiological strain associated with playing

in various environmental extremes. Acclimatization, preparation, and medical issues associated with each of these environmental extremes are discussed as well as medical issues occurring during the athlete's playing career (common sites of injury) and potential risks arising post-career (e.g. neurological dysfunction, arthritic joints, obesity). The book goes on to consider aspects of player selection and preparation, including discussion of evidence-based physical conditioning programs, appropriate nutrition, and specific dietary supplementation for the

---

American football player. The Science of American Football is the first book to focus on the physiology, science, and medical issues associated with the game of American football and will be key reading for students of coaching and exercise science as well as those with a keen interest in understanding the science of American football, such as coaches and players.
