Damon Gross has experienced many idle moments since retiring that have inspired both humorous and introspective writings. In a collection of entertaining limericks, Gross shares lyrical insight from his thoughts while showering, shaving, brushing his teeth, fixing supper, washing the dishes, watching his beloved Hawkeyes win a big game or go down in ignominious defeat, or performing other mindless chores. His limericks touch on relatable topics centered around the changing seasons, such as sporting events, the intimate mating rituals of rabbits, the aging process, the rhetoric surrounding a divisive political environment, and a wintry gloom that leaves us all a bit uninspired. A Light and Lively Look at Life is a volume of lighthearted limericks that share a retiree’s view of the world around him as he embraces all that accompanies the transformations that each season brings.

When it comes to their personal transportation, today's youth have shunned the large, heavy performance cars of their parents' generation and instead embraced what has become known as the "sport compact"--smaller,

lightweight, modern sports cars of predominantly Japanese manufacture. These cars respond well to performance modifications due to their light weight and technology-laden, high-revving engines. And by far, the most sought-after and modified cars are the Hondas and Acuras of the mid-'80s to the present. An extremely popular method of improving vehicle performance is a process known as engine swapping. Engine swapping consists of removing a more powerful engine from a better-equipped or more modern vehicle and installing it into your own. It is one of the most efficient and affordable methods of improving your vehicle's performance. This book covers in detail all the most popular performance swaps for Honda Civic, Accord, and Prelude as well as the Acura Integra. It includes vital information on electrics, fit, and drivetrain compatibility, design considerations, step-by-step instruction, and costs. This book is must-have for the Honda enthusiast.

His Last Rodeo Harlequin

From Jesse Andrews, author of the New York Times bestselling Me and Earl and the Dying Girl and screenwriter of the Sundance award – winning motion picture of the same name, comes a groundbreaking young adult novel about music, love, friendship, and freedom as three young musicians follow a quest to escape the law long enough to play the amazing show they hope (but also doubt) they have in them. Inspired by the years he spent playing bass in a band himself, The Haters is Jesse Andrews ’ s road trip adventure about a trio of jazz-camp escapees who, against every realistic expectation, become a band. For Wes and his best friend, Corey, jazz camp turns out to be lame. It ’ s pretty much all dudes talking in Jazz Voice. But then they jam with Ash, a charismatic girl with an unusual sound, and the three just click. It ’ s three and a half hours of pure musical magic, and Ash makes a decision: They need to hit the road. Because the road, not summer camp, is where bands get good. Before Wes and Corey know it, they ’ re in Ash ’ s SUV heading south, and The Haters Summer of Hate Tour has begun. In his second novel, Andrews again brings his brilliant and distinctive voice to YA, in the perfect book for music lovers, fans of The Commitments (author Rody Doyle raves "The Haters is terrific. It is shocking and funny, unsettling and charming."), and High Fidelity, or anyone who has ever loved—and hated—a song or a band. This witty, funny coming-of-age novel is contemporary fiction at its best. A New York Times bestseller
