When you go to college, you are starting to break away from your family and friends in the old neighborhood, presumably to discover your own true identity. You have no choice but to confront yourself. In your old high school you might have been the big fish in a little pond. Now you ’ re a little fish in a big pond. Everybody thinks they ’ re special. They ’ re not focusing on you as the cool, popular one. You have to make your own way. Depression rates are high. People are alone. They ’ re trying to do well in school. They ’ re competing with each other. You have to create a life for yourself. It ’ s your life. You will spend your life alone. You will not have the comfort of the family home anymore.

2012-2013 College Admissions Data Sourcebook Midwest Edition
For well over a half century, American Universities and Colleges has been the most comprehensive and highly respected directory of four-year institutions of higher education in the United States. A two-volume set that Choice magazine hailed as a most important resource in its November 2006 issue, this revised edition features the most up-to-date statistical data available to guide students in making a smart yet practical decision in choosing the university or college of their dreams. In addition, the set serves as an indispensable reference source for parents, college advisors, educators, and public, academic, and high school librarians. These two volumes provide extensive information on 1,900 institutions of higher education, including all accredited colleges and universities that offer at least the baccalaureate degree. This essential resource offers pertinent, statistical data on such topics as tuition, room and board; admission requirements; financial aid; enrollments; student life; library holdings; accelerated and study abroad programs; departments and teaching staff; buildings and grounds; and degrees conferred. Volume two of the set provides four indexes, including an institutional Index, a subject accreditation index, a levels of degrees offered index, and a tabular index of summary data by state. These helpful indexes allow readers to find information easily and to make comparisons among institutions effectively. Also contained within the text are charts and tables that provide easy access to comparative data on relevant topics.
