BNA's Employee Relations Weekly CRC Press

For well over a half century, American Universities and Colleges has been the most comprehensive and highly respected directory of four-year institutions of higher education in the United States. A two-volume set that Choice magazine hailed as a most important resource in its November 2006 issue, this revised edition features the most up-to-date statistical data available to guide students in making a smart yet practical decision in choosing the university or college of their dreams. In addition, the set serves as an indispensable reference source for parents, college advisors, educators, and public, academic, and high school librarians. These two volumes provide extensive information on 1,900 institutions of higher education, including all accredited colleges and universities that offer at least the baccalaureate degree. This essential resource offers pertinent, statistical data on such topics as tuition, room and board; admission requirements; financial aid; enrollments; student life; library holdings; accelerated and study abroad programs; departments and teaching staff; buildings and grounds; and degrees conferred. Volume two of the set provides four indexes, including an institutional Index, a subject accreditation index, a levels of degrees offered index, and a tabular index of summary data by state. These helpful indexes allow readers to find information easily and to make comparisons among institutions effectively. Also contained within the text are charts and tables that provide easy access to comparative data on relevant topics.

Engineering, Science, and Computer Jobs 1987 Princeton Review

Hispanic Engineer & Information Technology is a publication devoted to science and technology and to promoting opportunities in those fields for Hispanic Americans.

American Universities and Colleges Kaplan Publishing

Transitioning new engineers into professionals who can blend in and contribute to the technical organization is, at best, doubtful. Trained in the "nuts and bolts" of a technical subject, new engineers have little to no training on the "soft" skills of how to work within an organization. This robust guide shows new engineers how to quickly operate and succeed within their new engineering organization. Navigating the Engineering Organization: A New Engineer ' s Guide focuses on the group behaviors of technical organizations. It provides a rigorous organizational framework to operate from and delivers guidance using a dual approach of academic insight and professional experience. Through numerous case studies, the book presents actual experiential guidance and offers a method on how to extend the insights covered in the book and turn them into a valuable personal model, valid throughout the engineer ' s career. It helps readers understand quickly the unique values and expectations within their new engineering organization and guides them in discovering the proper ways to respond to these expectations. They can then act on these insights to deliver successful results, now and throughout their careers. The approach and goals found in this book provide a building block to help all new engineers cross the "Great Divide" from student to professional and succeed in their new engineering organization.

Michigan Professional Engineer Bloomsbury Publishing USA

EBONY is the flagship magazine of Johnson Publishing. Founded in 1945 by John H. Johnson, it still maintains the highest global circulation of any African American-focused magazine.

2012-2013 College Admissions Data Sourcebook Midwest Edition UM Libraries

Lists internship opportunities in a variety of fields, giving information about selectivity, compensation, deadlines, and duration.

Peterson's Annual Guides to Graduate Study Vault Inc.

Many guides claim to offer an insider view of top undergraduate programs, but no publisher understands insider information like Vault, and none of these guides provides the rich detail that Vault's new guide does. Vault publishes the entire surveys of current students and alumni at more than 300 top undergraduate institutions. Each 2- to 3-page entry is composed almost entirely of insider comments from students and alumni. Through these narratives Vault provides applicants with detailed, balanced perspectives.

US Black Engineer & IT Peterson Nelnet Company
