In The STEM Club Goes Exploring, students explore science, technology, engineering, and math (STEM) careers. While interviewing STEM professionals, the students prepare to make career presentations during their school's Favorites Day. Join STEM Club members Fran, Sara, Nixie, Winston, Patti, Betik, Jenny, Jesse, and their teacher Mr. Day, as they make field trips to a video game company, a veterinary clinic, a hospital, and even a mine, to learn more about career opportunities for professionals in STEM fields. Author Lois Melbourne, of the My Future Story series, inspires readers to identify their passions, explore them, and shape their

own future stories.

Women of Color is a publication for today's career women in business and technology.

General Register Peterson's

For well over a half century, American Universities and Colleges has been the most comprehensive and highly respected directory of four-year institutions of higher education in the United States. A two-volume set that Choice magazine hailed as a most important resource in its November 2006 issue, this revised edition features the most up-to-date statistical data available to guide students in making a smart yet practical decision in choosing the university or college of their dreams. In addition, the set serves as an indispensable reference source for parents, college advisors, educators, and public, academic, and high school librarians. These two volumes provide extensive information on 1,900 institutions of higher education, including all accredited colleges and universities that offer at least the baccalaureate degree. This essential resource offers pertinent, statistical data on such topics as tuition, room and board; admission requirements; financial aid; enrollments; student life; library holdings; accelerated and study abroad programs; departments and teaching staff; buildings and grounds; and degrees conferred. Volume two of the set provides four indexes, including an institutional Index, a subject accreditation index, a levels of degrees offered index, and a tabular index of summary data by state. These helpful indexes allow readers to find information easily and to make comparisons among institutions effectively. Also contained within the text are charts and tables that provide easy access to comparative data on relevant topics.

The STEM Club Goes Exploring Greenleaf Book Group

Special edition of the Federal Register, containing a codification of documents of general applicability and future effect ... with ancillaries.

Peterson's Colleges in New York ABC-CLIO

Offers information on more than 1,700 community and junior colleges in the United States and Canada.

National Service Corps. Hearing..88-1

Synthetic materials are a tremendous potential resource for treating human disease. For the rational design of many of these biomaterials it is necessary to have an understanding of polymer chemistry and polymer physics. Equally important to those two fields is a quantitative understanding of the principles that govern rates of drug transport, reaction, and disappearance in

physiological and pathological situations. This book is a synthesis of these principles, providing a working foundation for those in the field of drug delivery. It covers advanced drug delivery and contemporary biomaterials.

Peace Corps Volunteer Questionnaire

Peterson's Two-Year Colleges 2011 includes information on nearly 2,000 accredited two-year undergraduate institutions in the United States and Canada, as well as some international schools. It also includes scores of detailed two-page descriptions written by admissions personnel. College-bound students and their parents can research two-year colleges and universities for information on campus setting, enrollment, majors, expenses, student-faculty ratio, application deadline, and contact information. SELLING POINTS: Helpful articles on what you need to know about two-year colleges: advice on transferring and returning to school for adult students; how to survive standardized tests; what international students need to know about admission to U.S. colleges; and how to manage paying for college State-by-state summary table allows comparison of institutions by a variety of characteristics, including enrollment, application requirements, types of financial aid available, and numbers of sports and majors offered Informative data profiles for nearly 2,000 institutions, listed alphabetically by state (and followed by other countries) with facts and figures on majors, academic programs, student life, standardized tests, financial aid, and applying and contact information Exclusive two-page in-depth descriptions written by college administrators for Peterson's Indexes offering valuable information on associate degree programs at two-year colleges and four-year colleges-easy to search alphabetically
