This workbook contains 50% more exam-style questions than the previous edition, giving students even more opportunities to practise and build their confidence. Direct links to the coursebook make it easy to use the two in combination to help build skills in the classroom or at home. As requested by teacher, the first section of the book focuses on developing the skills you need as an accountant, particularly analysis. Answers to the workbook questions are in the teacher's resource.

Financial Accounting for BBA, 2nd Edition SBPD Publications
Book-Keeping Made Simple, Revised Edition covers all the basic principles of elementary book-keeping. The book

describes the requirements and process of starting a business, including ledger accounts, classifying the assets, the balance sheet, buying assets, and transactions involving liabilities. The text also discusses the double-entry systems; subsidiary books and original documents; the reduction of work-on day book entries; and the three-column cash books. The journal proper, the Imprest system, the trial balance and its limitations, and the bank reconciliation statements are also considered. The book further tackles analytical or columnar day books; the principle and layout of the cash book; the adjustments in final accounts; and partnership accounts. The text also discusses departmental-, manufacturing-, and control accounts and accounts of limited companies; the amalgamation of businesses; the purchase of

a business; and the bills for exchange. Students of book-keeping will find the book invaluable.

It gives me a great pleasure and satisfaction to present this book

“ FINANCE AND ACCOUNTING ” . The main characteristics of the book are simple understanding and key concepts. The following important highlights in this book will make the users to read this book.

i. I have illustrated Accounting cycle steps by creating 42 transactions, given the journal entries for these 42 transactions, prepared all the various ledger accounts from these journal entries,

preparation of Trial balance has done with these ledger account balances and finally, prepared the final accounts (Trading, Profit and loss account and Balance sheet) based on the Trial balance. Hence, I conclude that the end-to-end process of Accounting cycle with data interpretation has done in this book which will help the readers to understand that “ where can we get the amounts which are appear in trial balance). ii. I have evaluated 45 ratios based on latest financial statements of a leading manufacturing company for the financial year ended December 2019. iii. Clear presentation of financial statements analysis have done in this book. iv. Bank Reconciliation statement

have prepared based on real time scenario. v. Capital budgeting methods have explained in clear and transparent manner. vi. Readers can easily understand about Derivatives. vii. The computation of Sensex from live indices will help the readers to understand how the Sensex figures arrive. And also, I have given an important 150 terms under ' GLOSSARY ' at the end of the book which can be used as a quick reference to learn an important terminology of Finance and Accounts. Chapter wise hyperlink will help the readers to go quickly to the desired chapter. This book is useful to everyone in Finance and Accounting field like students, Accounts executives, Financial analysts, etc. I

have added two important chapters ' Monetary policy Rates ' and ' GDP and Inflation ' in this book. I hope that the book will help the readers to study in a focused manner. Any criticism and constructive suggestion in the direction of making the book a better teaching and studying manual will be gratefully acknowledged by the author. Suggestions will be incorporated in the subsequent editions. All the best
