only manual I got with it is
the electrical.

I just bought a used
Chevalier FSG618 that is
2hp, wired 220vac 3ph. I will
be running it off an RPC. I
have heard that the users
manuals are hard to get,
even from Chevalier. I
literally just sent an inquiry
about 10 minutes ago, to

Chevalier for a manual.
Evidently these manuals
come in three parts.
