Loretta's mother was a trapeze artist in Europe, the star of the famed Rodzirkus circus, before she walked out on her drunken husband and his debts while on tour in Australia. But a life in 1960s suburban Adelaide was always going to be difficult, even if she does land herself the most handsome young barrister of the town, and Leda's behaviour raises more than a few eyebrows. Leda's father, handsome barrister Gilbert Lord, has no interest in his past, but hidden in a wardrobe are the journals of his ivory merchant great-great-grandfather who led an expedition to Australia's desert interior to search for elephants. For Loretta, growing up in her mother's flamboyant and often outrageous shadow, life is stifling and at times brutal. But the harder she tries to separate herself from her mother, the more she longs for her attention and love—and the more she finds that the past is inextricably woven into her own life and who she is. The Trapeze Act weaves stories of the circus and the doomed ivory expedition through a novel that is at once a heartbreaking tale of the search for acceptance and a celebration of the lustre and magic of life. My mother, whose name was Leda, never shied from telling stories about the Dutch circus pedigree from which she'd sprung. If her ancestors were revealed to be a little unhinged in the process, so be it. I am not being fey when I say some of my ancestors could fly. My middle name, Maartje, comes from Flying Maartje May, the first woman in the world to successfully complete a triple somersault to catch on the flying

trapeze, a woman of such reckless grace and beauty that during an 1851 tour of the goldfields, men emerged from the mines to shower her in gold dust. Libby Angel is an Australian poet whose work has appeared in several journals. The Trapeze Act is her first novel. 'The brutal and tragic circus tales in The Trapeze Act will appeal to fans of Sara Gruen's Water for Elephants, while the family drama and Australian history will delight any modern literature reader.' Books+Publishing 'Angel's evocative prose easily captures the eras she describes, and her quirky characters...A colourful tale.' BookMooch 'One to pick up early this year...A complex narrative that interweaves circus tales with family heartache.' ArtsHub 'The Trapeze Act is not a novel about being in the circus, but about what happens after the circus...the novel follows Loretta's journey as she grapples with her parents' past and their influence on her present.' Guardian 'A book of whimsy and wit...It's the pure imaginative feat of The Trapeze Act, and Angel's joyous, clever use of language that makes it such a rollicking good read. I'm always excited when I hear a poet has made the leap to prose, because sometimes the result bends the rules of what we expect from a novel and creates something new. With The Trapeze Act, Angel has done just that.' Adelaide Advertiser 'With the release of The Trapeze Act, 2017 in Australian publishing is off to a great start.' AU Review 'Libby Angel weaves captivating stories of the circus throughout this lyrical work about acceptance and the influence of family.' Sunday Life 'It is an enriching story of heartbreak and a search for love and acceptance.' Weekly Times 'This family drama weaves circus magic, suburban malaise and tales of the Dark Continent in seamless harmony. An impressive debut.' Qantas Magazine 'An expertly layered, lyrical rumination on family and identity...Angel has a vivid imagination and poetic skill with

language. Her prose is evocative, her strikingly original characters as bright and colourful as they are intense. The Trapeze Act is a compelling portrait of a highly dysfunctional but delightful family. I look forward to seeing more from this talented writer.' Readings 'Quixotic and unpredictable and entertaining, like a good circus act.' ReadPlus 'The Trapeze Act is a stunning novel—something that should come as no surprise, give that it's the debut from poet Libby Angel. Angel transitions with ease between voices, eras and writing styles, crafting a lyrically beautiful world populated with fantastic characters...A beautiful debut' AU Review 'The Trapeze Act weaves stories of the circus and the doomed ivory expedition through a novel that is at once a heartbreaking tale of the search for acceptance and a celebration of the lustre and magic of life.' Better Read Than Dead 'Libby Angel's The Trapeze Act proves a colourful and striking coming-of-age novel, composed with a poet's sensitivity, flair and finesse.' Age '[Angel's] poetry shows in her delightful prose, and turn of phrase.' Otago Daily Times 'The Trapeze Act tackles questions of identity and belonging through an unapologetically feminist lens...The most evocative moments of the novel take place within Leda's circus tales of tragedy, imbuing the story with both a sense of abandon and melancholy, as well as the family dynamics that play out within a discombobulated household quite unlike any other.' Big Issue 'This short novel captures an essence of Australia and it also examines the question of whether we create our own identity or if our generic heritage is largely responsible for who we become.' Good Reading 'Angel's feisty voice and eye for the idiosyncrasies of 1960s Australia mean this is bloody bonza, mate.' North & South 'A well-written and entertaining debut...It is a pleasure to read Angel's poetic prose.' Australian Book Review 'If it sounds fabulously convoluted,

that's because it is—but first-time author poet Libby Angel expertly shifts between the various story arcs. Of course, it all starts to go horribly wrong, leaving Loretta to find her own way. But Angel's feisty voice and eye for the idiosyncrasies of 1960s Australia mean this is bloody bonza, mate.' North & South

The handbook focuses on a complete outline of lithium-ion batteries. Just before starting with an exposition of the fundamentals of this system, the book gives a short explanation of the newest cell generation. The most important elements are described as negative / positive electrode materials, electrolytes, seals and separators. The battery disconnect unit and the battery management system are important parts of modern lithium-ion batteries. An economical, faultless and efficient battery production is a must today and is represented with one chapter in the handbook. Cross-cutting issues like electrical, chemical, functional safety are further topics. Last but not least standards and transportation themes are the final chapters of the handbook. The different topics of the handbook provide a good knowledge base not only for those working daily on electrochemical energy storage, but also to scientists, engineers and students concerned in modern battery systems.

automotive industry, Lemon-Aid Used Cars and Trucks 20112012 shows buyers how to

pick the cheapest and most reliable vehicles from the past 30 years. Lemon-Aid guides are unlike any other car and truck books on the market. Phil Edmonston, Canada's automotive Dr. Phil for 40 years, pulls no punches. Like five books in one, Lemon-Aid Used Cars and Trucks is an expos of car scams and gas consumption lies; a do-it-yourself service manual; an independent guide that covers beaters, lemons, and collectibles; an archive of secret service bulletins granting free repairs; and a legal primer that even lawyers cant beat! Phil delivers the goods on free fixes for Chrysler, Ford, and GM engine, transmission, brake, and paint defects; lets you know about Corvette and Mustang tops that fly off; gives the lowdown on Honda, Hyundai, and Toyota engines and transmissions; and provides the latest information on computer module glitches.

Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. U.S. automakers are suddenly awash in profits, and South Koreans and Europeans have gained market shares, while Honda, Nissan, and Toyota have curtailed production following the 2011 tsunami in Japan. Shortages of Japanese new cars and supplier disruptions will likely push used car prices through the roof well into 2012, so what should a savvy buyer do? The all-new Lemon-Aid Used Cars and Trucks 2012-2013 has the answers, including: More vehicles rated, with some redesigned models that don't perform as well as previous iterations downrated. More roof crash-worthiness ratings along with an expanded cross-border shopping guide. A revised

summary of safety- and performance-related defects that are likely to affect rated models. More helpful websites listed in the appendix as well as an updated list of the best and worst "beaters" on the market. More "secret" warranties taken from automaker internal service bulletins and memos than ever.

Electrification is an evolving paradigm shift in the transportation industry toward more efficient, higher performance, safer, smarter, and more reliable vehicles. There is in fact a clear trend to move from internal combustion engines (ICEs) to more integrated electrified powertrains. Providing a detailed overview of this growing area, *Advanced Electric Drive Vehicles* begins with an introduction to the automotive industry, an explanation of the need for electrification, and a presentation of the fundamentals of conventional vehicles and ICEs. It then proceeds to address the major components of electrified vehicles—i.e., power electronic converters, electric machines, electric motor controllers, and energy storage systems. This comprehensive work: Covers more electric vehicles (MEVs), hybrid electric vehicles (HEVs), plug-in hybrid electric vehicles (PHEVs), range-extended electric vehicles

(REEVs), and all-electric vehicles (EVs) including battery electric vehicles (BEVs) and fuel cell vehicles (FCVs) Describes the electrification technologies applied to nonpropulsion loads, such as power steering and air-conditioning systems Discusses hybrid battery/ultra-capacitor energy storage systems, as well as 48-V electrification and belt-driven starter generator systems Considers vehicle-to-grid (V2G) interface and electrical infrastructure issues, energy management, and optimization in advanced electric drive vehicles Contains numerous illustrations, practical examples, case studies, and challenging questions and problems throughout to ensure a solid understanding of key concepts and applications Advanced Electric Drive Vehicles makes an ideal textbook for senior-level undergraduate or graduate engineering courses and a user-friendly reference for researchers, engineers, managers, and other professionals interested in transportation electrification. *The Car Book 2007* Dundurn Lemon-Aid Used Cars and Trucks 20102011 shows buyers how to pick the cheapest and most reliable vehicles from the past 30 years of production. While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes,

included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.
