This first book of its kind tells the behind-the-scenes story of the incredibly illegal Cannonball rally. This best seller is now available in paperback! In the early 1970s, Brock Yates, senior editor of Car and Driver Magazine, created the now infamous Cannonball Sea-to-Shining-Sea Memorial Trophy Dash; a flat out, no-holds-barred race from New York City to Redondo Beach, California. Setting out to prove that well trained drivers could safely navigate the American highways at speeds in excess of the posted limits, Mr. Yates created a spectacle reminiscent of the glory days of the barnstorming pilots. Filled with fascinating unpublished stories, nostalgic and modern-day photographs, inside information and hilarious stories from this outrageous and incredibly immoral rally. Brock is one of the best-known, most respected automotive journalists in the world today.

Did you know the color of fruits or vegetables can tell you the vitamins and nutrients they have? HueTriton creates a healthy lifestyle change that lasts. It is NOT a diet, but if you or your family have been struggling to eat enough fruits and vegetables, if you are wondering how to shift to a more plant-based way of eating, or if you just want some new ideas to incorporate nutritious color into your lifestyle, this is a great book for you! You'll learn how to substitute your snacks and side dishes with colorful vegetables. The more you do this, the more you'll notice improvements in your energy levels and weight—but more importantly, you'll be on your way to fool-proofing yourself against chronic disease (coupled with regular physical activity, of course)! At HueTriton, we divide these foods into 5 categories, grouped by color: blue/purple, red, green, yellow/orange, and white. Dividing fruits and vegetables by color provides an easy way to incorporate nutrient needs and health benefits into our diet. You should aim to consume one of each of the 5 colors every day. This book also serves as a guide to children. Within the second half of the book, you'll find a story you can read to your children: one that invites them into the world of choosing food through color. We also encourage you to check out HuePets, a fun way to encourage kids to eat fruits and vegetables by turning healthy eating into a game. It is important to get kids excited about eating fruits and vegetables because the choices they make at a young age can shape choices for the rest of a child's life.

Since its launch in 1967, the Camaro has been a friend to driving enthusiasts. Chevrolet's performance-minded individuals had their bona fide bowtie pony car, and right away, it was off to the races to craft and create versions that went above and beyond. The Camaro

proved to be the perfect canvas for many kinds of special editions, and it has remained that way throughout six generations of the iconic model that have been loved worldwide. In Camaro Special Editions: 1967 – Present, author and expert Matt Avery spotlights the most significant special editions and closely explores the pinnacles and highpoints of the model's lineage. Beginning with the classics, the story is told of the venerable Z28, the Corvette-sourced L89 and JL8, and the factory COPO zeniths, including the legendary ZL1. Moving to the realm of outside heavy hitters, Avery profiles the efforts of dealership partners, such as Nickey, Dana, Gorries, Baldwin-Motion, Yenko, and the works of motor maverick drag racer Dick Harrell. From its first year, the Camaro played a starring role as an Indy 500 pace car and during the festival celebration. A comprehensive look at the many different variants that have been present at the famed Brickyard speedway is included. A new bodystyle in the 1980s brought further special editions, including the race-ready Player's series and subsequent 1LE option. Fast forward to the Camaro's fourth generation, and activities accelerated even quicker with contemporary tuners, such as Callaway and Street Legal Performance (SLP), joining the fray along with dealer programs from Berger Chevrolet, GMMG, Hendrick Motorsports, Dale Earnhardt Chevrolet, and more. The very latest Camaros are documented as well, including the resurrected ZL1 and Z28, Specialty Vehicle Engineering's reimagined Yenko street terror, and Chevrolet Performance's all-out COPO race car. Factory packages, such as the Hot Wheels and Transformers, are covered, and all of the anniversary editions are examined, each marking milestones in the model's 55-year journey in becoming the thumping heartbeat of American sports car prowess. It's been quite a ride, and there's no letting up anytime soon. This book is a must-have resource and authoritative guide for celebrating the Camaro and its many fantastic and storied special editions.
