The high-water mark of the muscle car era is usually credited as 1970, and for good reason; Chevrolet was now stuffing high-powered 454 engines into Chevelles. Adding a larger displacement above the still-available 396 (402) offered buyers the option to order the most powerful production car of that era. The 1970-1972 Chevelles remain the most collectible of the model to this day. Author and historian Dale McIntosh pairs with restoration expert Rick Nelson to provide this bible of authenticity on the legendary 1970, 1971, and 1972 Chevelle models. Everything about restoring your Chevelle back to bone-stock is covered meticulously, including step-by-step instructions for chassis and interior restoration.

Understanding date variances on parts applicable to the build date of your Chevelle is vital to a factory-correct restoration, and including them in this book

provides a depth of coverage on these cars that is unequalled. Restoring a 1970-1972 Chevelle back to concours correct takes a certain amount of expertise. Thankfully, Rick and Dale have done a lot of the heavy lifting on the research side. With this authenticity guide, you can be confident that you have all the correct components and options accurately and expertly represented for your stock restoration. These fine details put the Chevelle Restoration and Authenticity Guide 1970-1972 a cut above the rest.

As the 19th century morphed into the 20th, the automobile was still in its infancy, yet more and more manufacturers were entering the burgeoning market. The first National Automobile Show was held in New York City 's Madison Square in 1900, with 51 exhibitors showing off their wares to almost 50,000 visitors. Many of these manufacturers dropped by the wayside or were merged into other companies so that by the end of the 1920s the industry was dominated by the Big Three of Chrysler, Ford, and General Motors. The vehicle that had the biggest impact was the Ford Model T (which arrived in 1908 and more than 15 million had been sold by the time production ceased in 1927), but many other American classics are covered in this book: legends such as the Ford Mustang and Thunderbird, the Chevrolet Bel Air and Corvette, Cadillac 's De Ville and Eldorado, along with names of a bygone era such as Packard, Studebaker, and the unrivaled opulence of Duesenberg.
