The Spark weighs only 2,313 pounds with the

automatic transmission, or 2,246 pounds

with the manual, so acceleration is

adequate for most situations. Chevy doesn't

quote top speed or 0-to-60 mph times for

the Spark - it isn't that kind of car.

Around town and on brief freeway jaunts,

it's just fine.

The 2020 Chevy spark is a very reliable, compact car. The spark has great gas mileage at around 31 mpg. Even though the gas tank is a small 9 gallons, it lasts quite a while. I love the technology in this car as well.
