Go behind closed doors in the Cleveland Indians' front office as award-winning sportswriter Terry Pluto analyzes the team's controversial recent moves to scrap a roster of popular stars and rebuild a new kind of contender. Granted unprecedented access to the team's top management and financial data, Pluto delivers an up-close account of how decisions were made to radically reshape the franchise. Indians fans grew accustomed to winning in the mid-1990s. They had an owner with deep pockets, a brand-new ballpark, and a team of high-priced all stars who delivered a division championship nearly every year. But that glorious ride ended with a jolt of reality after savvy owner Richard Jacobs sold the franchise at the top of the market in 2000. New owners Larry and Paul Dolan and new general manager Mark Shapiro faced a challenge: an aging team, a mounting payroll, and a shrinking budget. First they made mistakes. Then they made bold changes. Stars such as Manny Ramirez, Roberto Alomar, and Jim Thome were gone, replaced with roster of unproven youngsters and veteran rehab projects. Fans were alarmed and dismayed. Then, in 2002, Shapiro boldly predicted that the

Indians would return to contend for the playoffs after just three years of rebuilding. Critics scoffed. Yet at the end of the 2005 season, the Indians were indeed back in contention, one tantalizing game away from a return to the playoffs. The core of an exciting young team was beginning to take shape, and Shapiro was voted American League Executive of the Year as his team won an impressive 93 games despite a payroll ranked in baseball's bottom five. How was it done? In his familiar clear writing style, Pluto carefully explains the many risky moves made by management and tells which ones have paid off, which ones haven't, and why. This rare behind-the-scenes look at a modern front office will intrigue fantasy leaguers and fans fascinated by baseball dealmaking. It will be an eye-opener for Indians fans who may still be wondering, What happened to my team?

Neil Lanctot 's biography of Hall of Fame catcher Roy Campanella—filled with surprises—is the first life of the Dodger great in decades and the most authoritative ever published. Born to a father of Italian descent and an African-American mother, Campanella wanted to be a ballplayer from childhood but was barred by color from the major leagues. He dropped out of school to play professional ball with the Negro Leagues ' Washington (later Baltimore) Elite Giants, where he honed his skills under Hall of Fame catcher Biz Mackey. Campy played eight years in the Negro Leagues until the major leagues integrated. Ironically, he and not Jackie Robinson might have been the player to integrate baseball, as Lanctot reveals. An early recruit to Branch Rickey 's "Great Experiment" with the Brooklyn Dodgers, Campy became the first African-American catcher in the twentieth century in

the major leagues. As Lanctot discloses, Campanella and Robinson, pioneers of integration, had a contentious relationship, largely as a result of a dispute over postseason barnstorming. Campanella was a mainstay of the great Dodger teams that consistently contended for pennants in the late 1940s and 1950s. He was a three-time MVP, an outstanding defensive catcher, and a powerful offensive threat. But on a rainy January night in 1958, all that changed. On his way home from his liquor store in Harlem, Campy lost control of his car, hit a utility pole, and was paralyzed below the neck. Lanctot reveals how Campanella's complicated personal life (he would marry three times) played a role in the accident. Campanella would now become another sort of pioneer, learning new techniques of physical therapy under the celebrated Dr. Howard Rusk at his Institute of Physical Medicine and Rehabilitation. As he gradually recovered some limited motion, Campanella inspired other athletes and physically handicapped people everywhere. Based on interviews with dozens of people who knew Roy Campanella and diligent research into contemporary sources, Campy offers a three-dimensional portrait of this gifted athlete and remarkable man whose second life after baseball would prove as illustrious and courageous as his first.
