child observation. For this assignment, you will complete an observation of a child between the ages of 1 and 10. You will write a essay (with APA format) which carefully describes the behavior and discusses that behavior in terms of child developmental psychology. You can choose to visit a day care or nursery school and observe a randomly chosen child for an hour, or you can choose to observe the child of a friend or family member or even a child in Youtube.

Briefly put, child observation is the process of

tracking young learners ' behavior over time and documenting it. Further reflection and analysis of the collected data helps to identify patterns, assess child development, and map progress.

Observation usually happens while you are caring for infants and toddlers. So you may not have uninterrupted time to record your observations. Often teachers record their observations (also called documentation) when children are sleeping, at the end of the day after children leave, or during planning time.
