This discourse sets out and proves with evidence that the Family courts operating in the European Union especially the United States are civil and commercial courts. In an excellent way it illustrates how these people got around certain life matters that are routinely effected by terrorist child support and child custody issues and actors. Topics discussed are: Getting a job in the United States without having your money garnished; the proper way to open a bank account without child support knowing; what to do if in jail and the effective way to set up a trust. The biggest evidence this discourse presents is that child support is a patented civil and commercial

scam!Have you ever thought of doing an addendum for your child's birth certificate application? Have you ever thought of creating a trust and certificate of acknowledgement and acceptance over your child? Doing so snatches colorable jurisdiction from the local Family court and CPS. In this new information by way of this discourse, you will see that you have never acknowledged or accepted your child in these masonic courts. Nor have you memorialized your child's birth to the rest of us other than a STATE issued certificate of title! Upon the birth of your child, you gave the municipal corporation jurisdiction over your child as abandoned asset. You never claimed your child, accepted your child or acknowledged your child. You only applied for a warehouse receipt for the child a.k.a. Birth Certificate. But you are not the due-holder-in-process of the Certificate. This is why child protective services can come get the child at any time and send you to jail under a child custody battle or the ever famous child support controversy. Many attorneys will try to tell you that there exists in the child support scheme of the European Union, probable cause for your physical arrest. Without knowing the evidence presented here, you will more than likely go to jail and your child will got to foster care.This is your offensive and defensive playbook

The child support system is unfair and victimizes those who learn this fact too late. You owe it to yourself and your loved ones to arm yourself with facts, and insure that the process is fair to you. This book can save you thousands of dollars, and the endless headaches that come from making disastrous legal mistakes. It discusses every stage of the child support enforcement process from beginning to end, and is loaded with information that can make a real difference. It also includes a summary of the child support process and law for each of the fifty states. Without the benefit of legal advice, men who may or may not be parents are encouraged and even pressured to sign documents acknowledging paternity of a child, without ever being told that they are waiving valuable legal rights. They are not told that they are waiving their constitutional right to paternity testing forever. They are then ushered through a hurried process with the sole emphasis being documenting their income and creating a legal obligation to pay. They are not even told that the social worker who is typically guiding them through the process is effectively in the child support business. His or her job is to collect as much money for the custodial parent as possible and to do it quickly. The process by which a child support obligation is instituted and enforced has a financial impact on a equivalent to buying a house or a car. Arguably, the impact is far more, since the payments will often go on for a longer time, and failure to make them will possibly result in imprisonment, a result much worse than foreclosure. Yet, every week, thousands of men show up for child support hearings in every state armed with nothing more than a few old pay stubs. A man has an obligation to support his child, but also a right to question whether he is the parent of the child. He also has a right to have his support

payment set at an amount that is fair and reasonable, so that he can continue to pay his bills and other obligations, and enjoy life. This book was written based on the experience of twenty five years practicing law, and several more as a university professor. While there is no substitute for legal advice about your unique situation, this book will help you.
