Historia General del Piru Usborne Books

In contemporary philosophy, substantive moral theories are typically classified as either consequentialist or deontological. Standard consequentialist theories insist, roughly, that agents must always act so as to produce the best available outcomes overall. Standard

deontological theories, by contrast, maintain that there are some circumstances where one is permitted but not required to produce the best overall results, and still other circumstances in which one is positively forbidden to do so. Classical utilitarianism is the most familiar consequentialist view, but it is widely regarded as an inadequate account of morality. Although Professor Scheffler agrees with this assessment, he also believes that consequentialism seems initially plausible, and that there is a persistent air of paradox surrounding typical deontological views. In this book, therefore, he undertakes to reconsider the rejection of consequentialism. He argues that it is possible to provide a rationale for the view that agents need not always produce the best possible overall outcomes, and this motivates one departure from consequentialism; but he shows that it is surprisingly difficult to provide a satisfactory

rationale for the view that there are times when agents must not produce the best possible overall outcomes. He goes on to argue for a hitherto neglected type of moral conception, according to which agents are always permitted, but not always required, to produce the best outcomes.

Lead and Leadmining Orchard Books

The final novel from the New York Times bestselling author of *Are You Somebody?*

Like many a modern, well-travelled woman, Rosie has lived a fascinating life, full of adventure and the pleasure of many lovers in her younger years. Now, facing the challenges of middle-age, she finds that the things that defined her most--work, love, independence--begin to fail her. She comes home to Ireland to care for her elderly Aunt Min, trapped by circumstances in sleepy

Dublin. But when an opportunity arises to visit New York again, the story takes an unexpected turn... Published to rave reviews in France (Sabine Wespieser), *Best Love, Rosie* became an instant bestseller in Ireland, where it was published to mark the first anniversary of Nuala's death. Here is one last bittersweet look through those fierce eyes at aging, death, relationships and, as always, love.

England and the Continent in the Eighth Century Broadway

"Collecting documentary evidence that appeared in publications between 1988 and 1992, volume 10 reproduces, translates, and reviews a selection of Greek inscriptions and papyri that focus on major social institutions of the time. A comprehensive series of indexes for volumes 6-10 offers a cumulative perspective on many topics."--p. 4 of cover.

Carbon Nanotube-Polymer Composites John Wiley & Sons

The accessible compendium of polymers in carbon nanotubes (CNTs) Carbon nanotubes (CNTs)—extremely thin tubes only a few nanometers in diameter but able to attain lengths thousands of times greater—are prime candidates for use in the development of polymer composite materials. Bringing together thousands of disparate research works, *Carbon Nanotube-Polymer Composites: Manufacture, Properties, and Applications* covers CNT-polymers from synthesis to potential applications, presenting the basic science and engineering of this dynamic and complex area in an accessible, readable way. Designed to be of use to polymer scientists, engineers, chemists, physicists, and materials scientists, the book covers carbon nanotube

fundamentals to help polymer experts understand CNTs, and polymer physics to help those in the CNT field, making it an invaluable resource for anyone working with CNT-polymer composites. Detailed chapters describe the mechanical, rheological, electrical, and thermal properties of carbon nanotube-polymer composites. Including a glossary that defines key terms, *Carbon Nanotube-Polymer Composites* is essential reading for anyone looking to gain a fundamental understanding of CNTs and polymers, as well as potential and current applications, including electronics (shielding and transparent electrodes), flame retardants, and electromechanics (sensors and actuators), and their challenges.

Textual Criticism and Editorial Technique Applicable to Greek and Latin Texts New Directions Publishing Corporation

From beloved English author D.E. Stevenson who has sold more than 7 million books worldwide! The final charming installment in the life of nosy writer, Miss Buncle. Nothing goes unnoticed around Miss Buncle, even if she has to recruit more eyes. Much as changed in Wandlebury since Barbara Buncle (now Barbara Abbott) first moved to the charming English village. If nothing else, World War II is keeping things interesting. But as the mistress of her own home with two small children to look after, Barbara finds that she has distressingly little time to keep up with the goings-on of her friends and neighbors. Luckily, Barbara's niece, Jerry Abbott, is more than willing to keep tabs on the news in Wandlebury. And with juicy tidbits of gossip about everything from inconvenient romantic entanglements to German spies hiding in the

woods, there is plenty to keep the two Mrs. Abbotts busy in this hilarious account of life in World War II England. With the wit and charm of a Jane Austen novel and the gossipy, small-town delight of the Flavia de Luce series, D.E. Stevenson delivers another cozy gem with *The Two Mrs. Abbotts*, the third and final book of the beloved Miss Buncle series.

The Popes and the Papacy in the Early Middle Ages (Routledge Revivals) Penguin Books

There has been a tendency to the view the history of the early medieval papacy predominantly in ideological terms, which has resulted in the over-exaggeration of the idea of the papal monarchy. In this study, first published in 1979, Jeffrey Richards questions this view, arguing that whilst the papacy's power and responsibility grew during the

period under discussion, it did so by a series of historical accidents rather than a coherent radical design. The title redresses the imbalance implicit in the monarchical interpretation, and emphasizes other important political, administrative and social aspects of papal history. As such it will be of particular value to students interested in the history of the Church; in particular, the development of the early medieval papacy, and the shifting policies and characteristics of the popes themselves.

Leadmining was an important industry in Britain from the time of the Romans until the late nineteenth century - its remains are to be found scattered in and under the hills of Cornwall, Devon, the Mendips, the Pennines, the Lake District, Wales, the Isle of Man and Scotland. From the thousands of early small mines, worked generally under medieval laws, leadmining by the eighteenth century was forced to use capital-intensive methods to cope with deeper deposits and great inflows of

water, including very long levels and steam engines. Lead smelters, too, had to adapt and developed new furnaces and used spectacular flues and chimneys in otherwise wild landscapes to reduce pollution problems. By the 1880s, however, imports killed the industry - and only three mines have been successful since, all now closed. Today, and for the foreseeable future, lead ore production in Britain is only a by-product of mining for other minerals.

Hispanic Marketing Walter de Gruyter

THE family from which I am derived is not an ignoble one, but hath descended all along from the priests; and as nobility among several people is of a different origin, so with us to be of the sacerdotal dignity, is an indication of the splendor of a family. Now, I am not only sprung from a sacerdotal family in general, but

from the first of the twenty-four courses; and as among us there is not only a considerable difference between one family of each course and another, I am of the chief family of that first course also; nay, further, by my mother I am of the royal blood; for the children of Asamoneus, from whom that family was derived, had both the office of the high priesthood, and the dignity of a king, for a long time together. I will accordingly set down my progenitors in order.

R. Kikuo Johnson has created an intimate and compelling graphic novel-length drama of young men on the cusp of adulthood. First-rate prep school, S.U.V., and a dream house in the heights: This was the island paradise handed to Loren Foster when he moved to Hawaii with his father six years ago. Now, with the end of high school just around the corner, his best friend, Shane, has grown distant. The rumors say it's hard drugs, and Loren suspects that Shane has left him behind for a new group of friends. What sets Johnson's drama apart is the

naturalistic ease with which he explores the relationships of his characters. It is at once an unsentimental portrait of that most awkward period between adolescence and young adulthood and that rarest of things: a mature depiction of immature lives.

The Last Portrait of the Duchess of Alba John Wiley & Sons

A preliminary report on continuing research into the political, cultural, and religious milieu of the later Roman Empire, from a humanist historiographic perspective. Discusses autocracy and the elites, power, poverty, and the forging of a Christian empire. Does not assume a knowledge of Latin. Paper edition (unseen), \$12.95. Annotation copyright by Book News, Inc., Portland, OR

Treasure of the Castilian Or Spanish Language Oxford University Press

This book surveys the development of the Frankish Church under the Merovingian and Carolingian kings (c.500-900 AD) and the special difficulties it encountered.

Theoderic in Italy Routledge

Hispanic Marketing: The Power of the New Latino Consumer focuses on using cultural insights to connect with Latino consumers. Now in its third edition, the book provides marketers with the skills necessary to perform useful Hispanic market analysis and thus develop effective integrated marketing communication strategies. Brought to you by three leaders in the field of Hispanic Marketing, this third edition now includes: twenty-seven new case studies which emphasize digital marketing applications theories and discussions on recent changes to Hispanic culture and society concepts of social

identity, motivation, cognitive learning, acculturation, technology adaptation and the influence of word of mouth in relation to the Hispanic market a brand new companion website for course instructors with PowerPoint slides, videos, testbank questions and assignment examples Replete with marketing strategies that tap into the passion of Hispanic consumers, this book is the perfect companion for anyone specializing in Hispanic marketing who aims to build a meaningful connection between their brand and target markets.

The Mediterranean World in Late Antiquity

Oxford : Clarendon P

The career of Theoderic the Ostrogoth is one of the great success stories of antiquity. From being a ruler of a barbarian people wandering around the Balkans, he became king in Italy (493-526) and established one of the most powerful of the post-Roman states. Due to its ample documentation, the Italy of Theoderic allows detailed examination of a period on the frontiers of ancient and medieval, Roman and barbarian. And due to his success in attracting the attention of some of the major literary figures of the time, new light is cast on Boethius, Cassiodorus, and Ennodius when they are considered in the context of their connections with the government. Yet

Theoderic's reign, so praised by contemporaries, ended amid tension and discord. In this study, Moorhead considers whether the principles with which he governed brought about the impermanence of his achievement.
