Named one of the Best Books of 2020 by Refinery29 A hypnotic, wildly inventive novel about art, violence, and endurance Alice Knott lives alone, a reclusive heiress haunted by memories of her deceased parents and mysterious near-identical brother. Much of her family's fortune has been spent on a world-class collection of artwork, which she stores in a vault in her lonely, cavernous house. One day, she awakens to find the artwork destroyed, the act of vandalism captured in a viral video that soon triggers a rash of copycat incidents. As more videos follow and the world's most priceless works of art are destroyed one by one, Alice finds that she has become the chief suspect in an international conspiracy—even as her psyche becomes a shadowed landscape of childhood demons and cognitive disorder. Unsettling, almost physically immersive, Alice Knott is a virtuoso exploration of the meaning of art and the lasting afterlife of trauma, as well as a deeply humane portrait of a woman whose trials feel both apocalyptic and universal.

Norma Fox Mazer's remarkable story of two sisters fighting to survive against a world without caring. In the sad, shabby trailer where Em Thurkill lived her first fourteen years, suffering her father's alcoholic rages and her mother's deathly silence, and in the three she lived trapped with her violent, unstable sister, there seems more than enough to end even the dream of hope. Yet Em Thurkill's story is a story of how hope outlives brutality. It is a story of one girl's sweetness, and almost unbearable pain. Heartbreaking, mesmerizing, and ultimately transcendent, this novel is a tribute to the astonishing resilience of the human soul.

It's November in a Presidential election year, and incumbent Charles Smith's chances for reelection are looking grim. Though his staff has thrown in the towel and his wife has begun to prepare for her post-White House life, Chuck isn't ready to give up just yet. Amidst the biggest fight of his political career, the President has to find time to pardon a couple of turkeys – saving them from the slaughter before Thanksgiving – and this simple PR event inspires Smith to risk it all in attempt to win back public support. 'Conventional histories of the last days of the Roman Empire will no longer suffice after you read this book.' Averil Cameron, author of *Byzantine Matters* Long before Rome fell to the Ostrogoths in AD 476, a new city had risen to take its place as the beating heart of a late antique empire, the glittering Constantinople: New Rome. In this magisterial work, Professor Paul Stephenson charts the centuries surrounding this epic shift of power. He traces the cultural, social and political forces that led to the empire being ruled from a city straddling Europe and Asia, placing all into a rich natural and environmental context informed by the latest scientific research. Blending narrative with analysis, he shows how the city and empire of New Rome survived countless attacks and the rise of Islam. By the end, the wide world of linked cities had changed into a world founded on new ideas about government and God, art and war, and the very future of a Christian empire: Byzantium.
