Abandoned junk to some, the rusty old steel shells of vehicles are treasures to others, holding memories of a bygone era, or the promise of a pristinely restored, radically customized automobile.

Automotive photographer Will Shiers has captured these dreams on film for over ten years, and this volume collects his images between two covers for the first time. Here are the beautiful husks Shiers has found in the United States fields and barns, shops, and salvage yards across States. Divided into five categories—General Motors, Ford, Chrysler, Independents, and Special Vehicles—these wrecks and relics from 1910 to the 1970s come equipped with all the relevant information:

history, model, location. The most comprehensive and beautifully photographed collection of abandoned cars ever published, this volume preserves for all time the exquisite skeletons of American automotive might.

Re-live Corvette's early years at the drag strip! Famously known as "America's sports car," the Chevrolet Corvette came to market in 1953. That same year, the newly established National Hot Rod Association (NHRA) hosted its first event. The Corvette was never intended for quarter-mile drag racing, and it appeared to be completely at odds with the sport. Early equipment included an underpowered Blue Flame 6-cylinder motor and automatic transmission. But somehow, the two have become forever entwined. The Corvette brought an element of class and style to drag racing. On the showroom and on the street, it has always been unique. It is truly American. Likewise, the uniqueness that sets it apart from

everything else also meant that it had no natural competition on the drag strip. However, that fact didn't dampen enthusiasm. Indeed, the NHRA and other governing bodies introduced Sports Car divisions in the late 1950s, catering to both stock and modified vehicles. Naturally, these classes were packed with Corvettes. Racing historian Steve Holmes breaks new ground by unearthing the complete early history of the Corvette in drag racing. Quarter-Mile Corvettes focuses on the period from 1955 to 1975, which spans the first 20 years of Corvette V-8 production. Fittingly, this was also the era considered by many to be the greatest in drag racing's history, and Corvettes encapsulated the vibrancy of the period in a way that will never be repeated. Certainly, Chevrolet never intended for the Corvette to become a quarter-mile terror, but today, its nameplate has become one of the longest running in all of drag racing.

Buying a car can be a smart idea - a car loses the lion's share of its value when it is driven off the new car lot, so why let someone else take that loss? But buyer beware: A used car is likely to need more repairs and may come with a short warranty or none at all. In addition, used cars may lack the latest safety features. That is why it is so important for consumers to do extensive research so they can avoid all of the potential pitfalls of buying a used car. The auto experts at "Consumer Reports" have done the work for you and have compiled their extensive research and report their findings into the 2007 edition of **USED CAR BUYING GUIDE**. This fabulous tool will help steer any consumer who is in the market for a used car towards the better-performing and more reliable used car models and away from those models with a troubled past or substandard performance. Before consumers set foot on a used car lot, they should read all the valuable information provided in this book so they can be armed with as much information as possible and the knowledge to make an educated choice. "Consumer Reports" knows cars and offers the most detailed and revealing used car reliability information

available anywhere including: - Unbiased reviews of every major model from 1999 - 2006- Lists of the best and worst used vehicles and how to avoid a lemon - A checklist of what to look for when inspecting a used car- Best used cars for gas mileage- Tips on negotiating the best priceReliability, recalls and crash test information- Making sense of safety information -How to get the most money when trading in your current car The majority of this book is devoted to the profiles of 264 cars, minivans, SUVs and trucks, presenting all major 1999-2006 models. Each profile contains a photo from the representative year, a write-up of the vehicle, reliability history, crash-test data, and the model years when key safety gear was added and when a major redesign was made.

God's Miracle offers a riveting testimony of God's grace, mercy, and His love for those who trust and believe in Him and are obedient to His commandments. Elaine is a born-again Christian who experienced death and life after death. The book offers true insight into the reality of heaven and its glory. On October 6, 2016,

Elaine was preparing to travel to Europe on a month-long vacation to visit with family and friends. It had been nineteen years since she last visited her youngest son's tomb site, and she was looking forward to the trip. As she worked in her vegetable garden that Thursday afternoon, she heard a voice say, "Call your helper to come over to help you." She said to herself, "I don't need help because I am almost finished." The voice again said, "Call your helper to come over to help you." The second time, she listened to the voice and called for help. Within a half hour of the helper's arrival, Elaine suffered a massive heart attack and died three times. By the grace of God, she was able to dial 911 and request assistance before passing out. Her helper intervened and completed the call. Upon arrival to her home, the EMT's found her on the floor in a pulseless state. She was transported to the local hospital to be pronounced. She was miraculously revived after being deceased for forty-five minutes the first time. She flat lined three more times at the hospital before being medivacked to the trauma center but died again in route. She died again at the trauma center. In reality, she actually died six times. Her survival was nothing short of a divine and miraculous return to life. She was renamed "Ms. Miracle" by the doctors and hospital staff at the trauma center as she sustained no neurological damage after the trauma of dying and being revived six separate times. After her experience in Heaven and upon her return to earth, she realized that the voice she heard that afternoon was the voice of God speaking to her. The Action Era Vehicle
