Between 1994 and 1997, 18 former executives of American Honda Motor Company were convicted on federal fraud and racketeering charges. This true-crime story reveals the underbelly of one of the world's most respected companies, detailing the key characters in this 15-year scandal and their shady deals, along with internal and FBI investigations. Examines how the corruption adversely affected Honda's sales efforts, and analyzes the corporate culture that allowed it to flourish for so long. c. Book News Inc.

The Ultimate Classic Car Book Edmunds Publications

The A-904 and A-727, debuting in 1960 and 1962, respectively, are 3-speed automatic Chrysler TorqueFlite Transmissions. In Mopar circles, they have become synonymous with strength, durability, and performance. In fact, 43 years after its first application, A-904s were still found in the Jeep lineup! TorqueFlites are known for their dependability, but many have endured a tremendous amount of abuse over 50-plus years when hooked up to V-8 Mopar powerplants. There is little doubt that some of these automatics could be prone to failure, or at least need a thorough rebuild. Tom Hand shares his decades of experience rebuilding TorqueFlite transmissions with chapters dedicated to troubleshooting, disassembly and reassembly, performance modifications, post-installation procedures, and the most thorough source guide offered in print, ever. The author walks you through the TorqueFlite rebuild with color photos showcasing step-by-step procedures with highly detailed, easy-to-follow text. This book will keep money in your pocket and add experience to your résumé, but more important, it will help you get your Mopar back on the road! p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 12.0px Arial}

In this completely revised and updated edition of the customer service classic, Carl Sewell enhances his time-tested advice with fresh ideas and new examples and explains how the groundbreaking "Ten Commandments of Customer Service" apply to today's world. Drawing on his incredible success in transforming his Dallas Cadillac dealership into the second largest in America, Carl Sewell revealed the secret of getting customers to return again and again in the original Customers for Life. A lively, down-to-earth narrative, it set the standard for customer service excellence and became a perennial bestseller. Building on that solid foundation, this expanded edition features five completely new chapters, as well as significant additions to the original material, based on the lessons Sewell has learned over the last ten years. Sewell focuses on the expectations and demands of contemporary consumers and employees, showing that businesses can remain committed to quality service in the fast-paced new millennium by sticking to his time-proven approach: Figure out what customers want and make sure they get it. His "Ten Commandants" provide the essential guidelines, including: • Underpromise, overdeliver: Never disappoint your customers by charging them more than they planned. Always beat your estimate or throw in an extra service free of charge. • No complaints? Something's wrong: If you never ask your customers what else they want, how are you going to give it to them? • Measure everything: Telling your employees to do their best won't work if you don't know how they can improve.

Valiant J Series Service Manual Cartech

From the resumption of automobile production at the close of World War II through the 1950s, the American auto industry would see the births and deaths of several manufacturers, great technological advances, and an era of dramatic styling as a prospering nation asserted its growing mobility. Cars of this period are among the most iconic vehicles ever built in the United States: the 1949 Ford, the remarkable Studebaker designs of 1950 and 1953, the 1955-1957 Chevrolets, the "Forward Look" Chrysler products, the ill-fated Edsel and many others. This comprehensive reference book details every model from each of the major manufacturers (including independents such as Kaiser-Frazer and Crosley but excluding very low-volume marques such as Tucker) from model years 1946 through 1959. Year by year, it provides an overview of the industry and market, followed by an individual report on each company: its main news for the year (introductions or cancellations of models, new engines and transmissions, advertising themes, sales trends etc.); its production figures and market status; and its powertrain offerings, paint colors and major options. The company's models are then detailed individually with such information as body styles, prices, dimensions and weights, standard equipment and production figures. Nearly 1,000 photographs are included.

Chilton's Auto Repair Manual

“The story of what Dakota did . . . will be told for generations.”—President Barack Obama, from remarks given at Meyer’s Medal of Honor ceremony In the fall of 2009, Taliban insurgents ambushed a patrol of Afghan soldiers and Marine advisors in a mountain village called Ganjigal. Firing from entrenched positions, the enemy was positioned to wipe out one hundred men who were pinned down and were repeatedly refused artillery support. Ordered to remain behind with the vehicles, twenty-one year-old Marine corporal Dakota Meyer disobeyed orders and attacked to rescue his comrades. With a brave driver at the wheel, Meyer stood in the gun turret exposed to withering fire, rallying Afghan troops to follow. Over the course of the five hours, he charged into the valley time and again. Employing a variety of machine guns, rifles, grenade launchers, and even a rock, Meyer repeatedly repulsed enemy attackers, carried wounded Afghan soldiers to safety, and provided cover for dozens of others to escape—supreme acts of valor and determination. In the end, Meyer and four stalwart comrades—an Army captain, an Afghan sergeant major, and two Marines—cleared the battlefield and came to grips with a tragedy they knew could have been avoided. For his actions on that day, Meyer became the first living Marine in three decades to be awarded the Medal of Honor. Into the Fire tells the full story of the chaotic battle of Ganjigal for the first time, in a compelling, human way that reveals it as a microcosm of our recent wars. Meyer takes us from his upbringing on a farm in Kentucky, through his Marine and sniper training, onto the battlefield, and into the vexed aftermath of his harrowing exploits in a battle that has become the stuff of legend. Investigations ensued, even as he was pitched back into battle alongside U.S. Army soldiers who embraced him as a fellow grunt. When it was over, he returned to the States to confront living with the loss of his closest friends. This is a tale of American values and upbringing, of stunning heroism, and of adjusting to loss and to civilian life. We see it all through Meyer’s eyes, bullet by bullet, with raw honesty in telling of both the errors that resulted in tragedy and the resolve of American soldiers, U.S. Marines, and Afghan soldiers who’d been abandoned and faced certain death. Meticulously researched and thrillingly told, with nonstop pace and vivid detail, Into the Fire is the unvarnished story of a modern American hero. Praise for Into the Fire “A story of men at their best and at their worst . . . leaves you gaping in admiration at Medal of Honor winner Dakota Meyer’s courage.”—National Review “Meyer’s dazzling bravery wasn’t momentary or impulsive but deliberate and sustained.”—The Wall Street Journal “[A] cathartic, heartfelt account . . . Combat memoirs don’t get any more personal.”—Kirkus Reviews “A great contribution to the discussion of an agonizingly complex subject.”—The Virginian-Pilot “Black Hawk Down meets Lone Survivor.”—Library Journal
