This manual, the infamous "KUBARK Counterintelligence Interrogation," dated July 1963, is the source of much of the material in the second manual. KUBARK was a U.S. Central Intelligence Agency cryptonym for the CIA itself. The cryptonym KUBARK appears in the title of a 1963 CIA document KUBARK Counterintelligence Interrogation which describes interrogation techniques, including, among other things, "coercive counterintelligence interrogation of resistant sources." This is the oldest manual, and describes the use of abusive techniques, as exemplified by two references to the use of electric shock, in addition to use of threats and fear, sensory deprivation, and isolation.

The CIA Document of Human Manipulation: Kubark Counterintelligence Interrogation Manual Simon and Schuster

The acclaimed investigative reporter and author of *Confronting Collapse* examines the global forces that led to 9/11 in this provocative exposé. The attacks of September 11, 2001 were accomplished through an amazing orchestration of logistics and personnel. Crossing the Rubicon examines how such a conspiracy was possible through an interdisciplinary analysis of petroleum, geopolitics, narco-traffic, intelligence and militarism—without which 9/11 cannot be understood. In reality, 9/11 and the resulting "War on Terror" are parts of a massive authoritarian response to an emerging economic crisis of unprecedented scale. Peak Oil—the beginning of the end for our industrial civilization—is driving the elites of American power to implement unthinkably draconian measures of repression, warfare and population control. Crossing the Rubicon is more than a story of corruption and greed. It is a map of the perilous terrain through which we are all now making our way.

The CIA Guide to Clandestine Operations Covert operations are an intelligence operation that is carried clandestinely and, often, outside of official channels. Covert operations aim to fulfill their mission objectives without any parties knowing who sponsored or carried out the operation. Clandestine Activity is surreptitious or secret activity undertaken by professional organizations on behalf of governments or conspiratorial groups only when overt means are inadequate or not possible to acquire such information. Since the early 1970's, the CIA, for various reasons, has become a risk adverse intelligence organization. Clandestine and espionage operations by their very nature are high risk ventures. One solution to the CIA's problem was to enter in to joint espionage ventures with foreign governments whose intelligence agencies were known for their professionalism and expertise. The CIA financed these operations and their partner ran the operation and assumed the risk. The CIA shared in any intelligence produced in these operations. Great Britain's MI6 and Israel's Mossad were frequent partners in these types of clandestine operations. The second solution was to train and liaison with lesser foreign intelligence agencies. Many times the funding for this training was concealed in Foreign Aid packages. This type of relationship allowed the CIA to maintain a "Big Brother" relationship with certain foreign intelligence agencies for years. The parameters of this relationship allowed the CIA to utilize the "Little Brother's" resources and manpower to collect intelligence on common enemies, such as the Soviet Union. The CIA's training materials formed the basis of, or in some cases, the entirety of the host countries espionage and clandestine operational doctrine. Much of the third world's intelligence agencies in Asia, South America, the Middle East, and Africa owe their clandestine tradecraft to the CIA. This guide, although the current doctrine of a key American ally in the Global War on Terror, has the pure DNA of CIA clandestine tradecraft.

Released by the Freedom of Information Act. This document is a thorough description of how the CIA recommends interrogating a subject. To get the information that is needed there is nothing withheld short of torture. For example in "Threats and Fears," the CIA authors note that "the threat of coercion usually weakens or destroys resistance more effectively than coercion itself. The threat to inflict pain, for example, can trigger fears more damaging than the immediate sensation of pain." Under the subheading "Pain," the guidelines discuss the theories behind various thresholds of pain, and recommend that a subject's "resistance is likelier to be sapped by pain which he seems to inflict upon himself" such rather than by direct torture. The report suggests forcing the detainee to stand at attention for long periods of time. A section on sensory deprivations suggests imprisoning detainees in rooms without sensory stimuli of any kind, "in a cell which has no light," for example.

INSTANT NEW YORK TIMES BESTSELLER "Fast and thrilling . . . Life Undercover reads as if a John le Carré character landed in Eat Pray Love." —The New York Times Amaryllis Fox's riveting

memoir tells the story of her ten years in the most elite clandestine ops unit of the CIA, hunting the world's most dangerous terrorists in sixteen countries while marrying and giving birth to a daughter. Amaryllis Fox was in her last year as an undergraduate at Oxford studying theology and international law when her writing mentor Daniel Pearl was captured and beheaded. Galvanized by this brutality, Fox applied to a master's program in conflict and terrorism at Georgetown's School of Foreign Service, where she created an algorithm that predicted, with uncanny certainty, the likelihood of a terrorist cell arising in any village around the world. At twenty-one, she was recruited by the CIA. Her first assignment was reading and analyzing hundreds of classified cables a day from foreign governments and synthesizing them into daily briefs for the president. Her next assignment was at the Iraq desk in the Counterterrorism center. At twenty-two, she was fast-tracked into advanced operations training, sent from Langley to "the Farm," where she lived for six months in a simulated world learning how to use a Glock, how to get out of flexicuffs while locked in the trunk of a car, how to withstand torture, and the best ways to commit suicide in case of captivity. At the end of this training she was deployed as a spy under non-official cover--the most difficult and coveted job in the field as an art dealer specializing in tribal and indigenous art and sent to infiltrate terrorist networks in remote areas of the Middle East and Asia. Life Undercover is exhilarating, intimate, fiercely intelligent--an impossible to put down record of an extraordinary life, and of Amaryllis Fox's astonishing courage and passion.

Bizarre military history: In 1979, a crack commando unit was established by the most gifted minds within the U.S. Army. Defying all known laws of physics and accepted military practice, they believed that a soldier could adopt the cloak of invisibility, pass cleanly through walls, and—perhaps most chillingly—kill goats just by staring at them. They were the First Earth Battalion, entrusted with defending America from all known adversaries. And they really weren't joking. What's more, they're back—and they're fighting the War on Terror. An uproarious exploration of American military paranoia: With investigations ranging from the mysterious " Goat Lab, " to Uri Geller's covert psychic work with the CIA, to the increasingly bizarre role played by a succession of U.S. presidents, this might just be the funniest, most unsettling book you will ever read—if only because it is all true and is still happening today.
