U.S. Army Improvised Munitions Handbook

Createspace Independent Publishing Platform
The originally 19 page type written documents was released as part of collection of Central Intelligence Agency files related to CIA Operations; PBFORTUNE and PBSUCCESS. The original document was undated and unsigned but with an estimated publication date of Dec 31st 1953. With Historical commentary by Carl Whitman and Tactical Analysis by Ninjutsu Expert Ron Collins

The Ultimate Street Smarts Training Manual Good Press

Written by one of the world's leading experts in the field, The Essential Guide to Remote Viewing is a basic introduction to the extraordinary extrasensory perceptual skill which was developed for the US military during the Cold War. This book describes what remote viewing is, how it came to be, what kinds of remote viewing there are, and counters skeptical arguments against remote viewing's legitimacy. Further, the book contains examples of successful remote viewing attempts, explains how remote viewing can be used for practical purposes, how ordinary civilians can themselves now learn to do it, and outlines experiments that readers can try for themselves. The ideal reader of The Essential Guide to Remote Viewing will be someone who knows little or nothing about remote viewing and wants an

inexpensive source for credible information. Others who will be interested are those who are involved in remote viewing and want an easily-accessible introduction to give to friends or relatives who have questions about what this thing is their loved ones have gotten involved with. Finally, those who are already involved with remote viewing but feel the need to extend their basic knowledge will find this book both interesting and useful. *Executive Summary of the Committee Study of the Central Intelligence Agency's Detention and Interrogation Program* RosettaBooks
Released by the Freedom of Information Act. This document is a thorough description of how the CIA recommends interrogating a subject. To get the information that is needed there is nothing withheld short of torture. For example in "Threats and Fears," the CIA authors note that "the threat of coercion usually weakens or destroys resistance more effectively than coercion itself. The threat to inflict pain, for example, can trigger fears more damaging than the immediate sensation of pain." Under the subheading "Pain," the guidelines discuss the theories behind various thresholds of pain, and recommend that a subject's "resistance is likelier to be sapped by pain which he seems to inflict upon himself" such rather than by direct torture. The report suggests forcing the detainee to stand at attention for long periods of time. A section on sensory deprivations suggests imprisoning detainees in rooms without sensory stimuli of any kind, "in a cell which has no light," for example.

The Men Who Stare at Goats Good Press

The "Human Resource Exploitation Training Manual - 1983", was used in at least seven U.S. training courses conducted in Latin American countries, including Honduras, between 1982 and 1987. According to a declassified 1989 report prepared for the Senate intelligence committee, the 1983 manual was developed from notes of a CIA interrogation course in Honduras. The manuals deal exclusively with interrogation and has an entire chapter devoted to "coercive techniques". This manual recommends arresting suspects early in the

morning by surprise, blindfolding them, and stripping them naked. Suspects should be held incommunicado and should be deprived of any kind of normal routine in eating and sleeping. Interrogation rooms should be windowless, soundproof, dark and without toilets.

Black Ops Skyhorse Publishing Inc.

"Psychological Operations in Guerrilla Warfare" by Tayacán (translated by Joanne Omang). Published by Good Press. Good Press publishes a wide range of titles that encompasses every genre. From well-known classics & literary fiction and non-fiction to forgotten?or yet undiscovered gems?of world literature, we issue the books that need to be read. Our goal is to produce eBooks that are user-friendly and accessible to everyone in a high-quality digital format.

CIA Field-Expedient Key Casting Manual Zed Books

The evidence in this book may not ultimately give you the "smoking gun" you are looking for on your journey, but I guarantee it will give you a box of bullets when you find it. In 1996, John Greenwald, Jr. began researching the secret inner workings of the U.S. Government at the age of fifteen. He targeted such agencies as the CIA, FBI, Pentagon, Air Force, Army, Navy, NSA, DIA, and countless others. Greenwald utilized the Freedom of Information Act (FOIA) to gain access to more than two million pages of documents. This archive includes information relating to UFOs, the JFK Assassination, chemical, biological, and nuclear weapons, and top secret aircraft. He took the millions of pages, and over the course of more than two decades, has built an archive known around the world, as The Black Vault. Inside The Black Vault: The Government's UFO Secrets

Revealed takes you on a journey within the secret world of unidentified aerial phenomenon that has plagued the military since at least the 1940s. Declassified records prove that the UFO topic is one of the most highly classified and most elusive subjects the U.S. Government has ever dealt with. Each chapter explores various agencies and their documents, and Greenwald breaks down the meaning of why some of the most important documents are relevant to proving a massive cover-up. Along with declassified documents, Greenwald outlines the struggle it took him to get them. No other topic has proven so difficult, in more than 8,000 FOIA requests that he has filed. He explores why that might be and meets skeptics and debunkers head on, outlining why some of their more prominent rebuttals for it all cannot be true.

The Official CIA Manual of Trickery and Deception Lulu Press, Inc

In this seminal work, published by the C.I.A. itself, produced by Intelligence veteran Richards Heuer discusses three pivotal points. First, human minds are ill-equipped ("poorly wired") to cope effectively with both inherent and induced uncertainty. Second, increased knowledge of our inherent biases tends to be of little assistance to the analyst. And lastly, tools and techniques that apply higher levels of critical thinking can substantially improve analysis on complex problems.

Your Training Manual, Should You Choose to Accept it Harper Collins

Learn how the CIA agent gets behind locked doors. This revised reprint of the classic CIA Key Casting Instruction Manual will teach you how to make a duplicate key when you can keep the original for only a short time. A step-by-step, self-checking guide, it gives you all the know-how you need to

create accurate keys to gain access to off-limits areas with no special equipment.

Psychology of Intelligence Analysis Melville House
Human resources management is essential for any workplace environment and is deemed most effective when a strategic focus is in place to ensure that people can facilitate that achievement of organizational goals. But, effective human resource management also contains an element of risk management for an organization which, as a minimum, ensures legislative compliance. *Human Resources Management: Concepts, Methodologies, Tools, and Applications* compiles the most sought after case studies, architectures, frameworks, methodologies, and research related to human resources management. Including over 100 chapters from professional, this three-volume collection presents an in-depth analysis on the fundamental aspects, tools and technologies, methods and design, applications, managerial impact, social/behavioral perspectives, critical issues, and emerging trends in the field, touching on effective and ineffective management practices when it comes to human resources. This multi-volume work is vital and highly accessible across the hybrid domain of business and management, essential for any library collection.

The Official CIA Manual of Trickery and Deception Paladin Press

Magic or spycraft? In 1953, against the backdrop of the Cold War, the CIA initiated a top-secret program, code-named MKULTRA, to counter Soviet mind-control and interrogation techniques. Realizing that clandestine officers might need to covertly deploy newly developed pills, potions, and powders against the adversary, the CIA hired America's most famous magician, John Mulholland, to write two manuals on sleight of hand and undercover communication techniques. In 1973, virtually all documents related to MKULTRA were destroyed. Mulholland's manuals were thought to be among them—until a single surviving copy of each, complete with illustrations, was recently discovered in

the agency's archives. The manuals reprinted in this work represent the only known complete copy of Mulholland's instructions for CIA officers on the magician's art of deception and secret communications.

The Government's UFO Secrets Revealed Random House

Bizarre military history: In 1979, a crack commando unit was established by the most gifted minds within the U.S. Army. Defying all known laws of physics and accepted military practice, they believed that a soldier could adopt the cloak of invisibility, pass cleanly through walls, and—perhaps most chillingly—kill goats just by staring at them. They were the First Earth Battalion, entrusted with defending America from all known adversaries. And they really weren't joking. What's more, they're back—and they're fighting the War on Terror. An uproarious exploration of American military paranoia: With investigations ranging from the mysterious "Goat Lab," to Uri Geller's covert psychic work with the CIA, to the increasingly bizarre role played by a succession of U.S. presidents, this might just be the funniest, most unsettling book you will ever read—if only because it is all true and is still happening today.

How to Be a Spy Rowman & Littlefield

Do you have the locksmith's phone number on speed dial? Find yourself spending a fortune on new locks after someone lost their keys again? Forgot your keys in the car one too many times? quickly teach you what you need to know. Soon you'll be able to get yourself into your house, office desk, or car . . . without your key.

CIA Lock Picking Independently Published
The CIA Guide to Clandestine Operations
Covert operations are an intelligence operation that is carried clandestinely and, often, outside of official channels. Covert operations aim to fulfill their mission objectives without any parties knowing who sponsored or carried out the operation. Clandestine Activity is surreptitious or secret activity undertaken by professional organizations on behalf of governments or conspiratorial groups only when overt means are inadequate or not possible to acquire such information. Since the early 1970's, the CIA, for various reasons, has become a risk adverse intelligence organization. Clandestine and espionage operations by their very nature are high risk ventures. One solution to the CIA's problem was to enter in to joint espionage ventures with foreign governments whose intelligence agencies were known for their professionalism and expertise. The CIA financed these operations and their partner ran the operation and assumed the risk. The CIA shared in any intelligence produced in these operations. Great Britain's MI6 and Israel's Mossad were frequent partners in these types of clandestine operations. The second solution was to train and liaison with lesser foreign intelligence agencies. Many times the funding for this training was concealed in Foreign Aid packages. This type of relationship allowed the CIA to maintain a "Big Brother" relationship with certain foreign intelligence agencies for years. The parameters of this relationship

allowed the CIA to utilize the "Little Brother's" resources and manpower to collect intelligence on common enemies, such as the Soviet Union. The CIA's training materials formed the basis of, or in some cases, the entirety of the host countries espionage and clandestine operational doctrine. Much of the third world's intelligence agencies in Asia, South America, the Middle East, and Africa owe their clandestine tradecraft to the CIA. This guide, although the current doctrine of a key American ally in the Global War on Terror, has the pure DNA of CIA clandestine tradecraft.

CIA Lock Picking Field Operative Training Manual Lulu.com

The classic thriller about a hostile foreign power infiltrating American politics: "Brilliant . . . wild and exhilarating." -The New Yorker
A war hero and the recipient of the Congressional Medal of Honor, Sgt. Raymond Shaw is keeping a deadly secret—even from himself. During his time as a prisoner of war in North Korea, he was brainwashed by his Communist captors and transformed into a deadly weapon—a sleeper assassin, programmed to kill without question or mercy at his captors' signal. Now he's been returned to the United States with a covert mission: to kill a candidate running for US president . . . This "shocking, tense" and sharply satirical novel has become a modern classic, and was the basis for two film adaptations (San Francisco Chronicle). "Crammed with suspense." -Chicago Tribune
"Condon is wickedly skillful." -Time
Information Security Handbook Vintage
The Explosive National Bestseller
A memoir by the highest-ranking covert warrior to lift the veil of secrecy and offer a glimpse into the shadow wars that America has fought since the Vietnam Era. Enrique Prado found himself in his first firefight at age seven. The son of a middle-class Cuban family caught in the midst of the Castro Revolution, his family fled their war-torn home

for the hope of a better life in America. Fifty years later, the Cuban refugee retired from the Central Intelligence Agency as the CIA equivalent of a two-star general. Black Ops is the story of Ric's legendary career that spanned two eras, the Cold War and the Age of Terrorism. Operating in the shadows, Ric and his fellow CIA officers fought a little-seen and virtually unknown war to keep USA safe from those who would do it harm. After duty stations in Central, South America, and the Philippines, Black Ops follows Ric into the highest echelons of the CIA's headquarters at Langley, Virginia. In late 1995, he became Deputy Chief of Station and co-founding member of the Bin Laden Task Force. Three years later, after serving as head of Korean Operations, Ric took on one of the most dangerous missions of his career: to re-establish a once-abandoned CIA station inside a hostile nation long since considered a front line of the fight against Islamic terrorism. He and his team carried out covert operations and developed assets that proved pivotal in the coming War on Terror. A harrowing memoir of life in the shadowy world of assassins, terrorists, spies and revolutionaries, Black Ops is a testament to the courage, creativity and dedication of the Agency's Special Activities Group and its elite shadow warriors.
