The Senate Intelligence Committee Report on Torture (Academic Edition) Stanford University Press

In this seminal work, published by the C.I.A. itself, produced by Intelligence veteran Richards Heuer discusses three pivotal points. First, human minds are ill-equipped ("poorly wired") to cope effectively with both inherent and induced uncertainty. Second, increased knowledge of our inherent biases tends to be of little assistance to the analyst. And lastly, tools and techniques that apply higher levels of critical thinking can substantially improve analysis on complex problems.

Released by the Freedom of Information Act. This document is a thorough description of how the CIA recommends interrogating a subject. To get the information that is needed there is nothing withheld short of torture. For example in "Threats and Fears," the CIA authors note that "the threat of coercion usually weakens or destroys resistance more effectively than coercion itself. The threat to inflict pain, for example, can trigger fears more damaging than the immediate sensation of pain." Under the subheading "Pain," the guidelines discuss the theories behind various thresholds of pain, and recommend that a subject's "resistance is likelier to be sapped by pain which he seems to inflict upon himself" such rather than by direct torture. The report suggests forcing the detainee to stand at attention for long periods of time. A section on sensory deprivations suggests imprisoning detainees in rooms without sensory stimuli of any kind, "in a cell which has no light," for example.

CIA Field-Expedient Key Casting Manual Official CIA Manual: Human Resource Exploitation Training Manual

Magic or spycraft? In 1953, against the backdrop of the Cold War, the CIA initiated a top-secret program, code-named MKULTRA, to counter Soviet mind-control and interrogation techniques. Realizing that clandestine officers might need to covertly deploy newly developed pills, potions, and powders against the adversary, the CIA hired America's most famous magician, John Mulholland, to write two manuals on sleight of hand and undercover communication techniques. In 1973, virtually all documents related to MKULTRA were destroyed. Mulholland's manuals were thought to be among them—until a single surviving copy of each, complete with illustrations, was recently discovered in the agency's archives. The manuals reprinted in this work represent the only known complete copy of Mulholland's instructions for CIA officers on the magician's art of deception and secret communications.

How to be an International Spy Harper Collins

This manual, the infamous "KUBARK Counterintelligence Interrogation," dated July 1963, is the source of much of the material in the second manual.

KUBARK was a U.S. Central Intelligence Agency cryptonym for the CIA itself. The cryptonym KUBARK appears in the title of a 1963 CIA document KUBARK Counterintelligence Interrogation which describes interrogation techniques, including, among other things, "coercive counterintelligence interrogation of resistant sources." This is the oldest manual, and describes the use of abusive techniques, as exemplified by two references to the use of electric shock, in addition to use of threats and fear, sensory deprivation, and

isolation.

INSTANT NEW YORK TIMES BESTSELLER "Fast and thrilling . . . Life Undercover

reads as if a John le Carré character landed in Eat Pray Love." —The New York Times Amaryllis Fox's riveting memoir tells the story of her ten years in the most elite clandestine ops unit of the CIA, hunting the world's most dangerous terrorists in sixteen countries while marrying and giving birth to a daughter Amaryllis Fox was in her last year as an undergraduate at Oxford studying theology and international law when her writing mentor Daniel Pearl was captured and beheaded. Galvanized by this brutality, Fox applied to a master's program in conflict and terrorism at Georgetown's School of Foreign Service, where she created an algorithm that predicted, with uncanny certainty, the likelihood of a terrorist cell arising in any village around the world. At twenty-one, she was recruited by the CIA. Her first assignment was reading and analyzing hundreds of classified cables a day from foreign governments and synthesizing them into daily briefs for the president. Her next assignment was at the Iraq desk in the Counterterrorism center. At twenty-two, she was fast-tracked into advanced operations training, sent from Langley to "the Farm," where she lived for six months in a simulated world learning how to use a Glock, how to get out of flexicuffs while locked in the trunk of a car, how to withstand torture, and the best ways to commit suicide in case of captivity. At the end of this training she was deployed as a spy under non-official cover--the most difficult and coveted job in the field as an art dealer specializing in tribal and indigenous art and sent to infiltrate terrorist networks in remote areas of the Middle East and Asia. Life Undercover is exhilarating, intimate, fiercely intelligent--an impossible to put down record of an extraordinary life, and of Amaryllis Fox's astonishing courage and passion.

The acclaimed investigative reporter and author of Confronting Collapse examines the global forces that led to 9/11 in this provocative exposé. The attacks of September 11, 2001 were accomplished through an amazing orchestration of logistics and personnel. Crossing the Rubicon examines how such a conspiracy was possible through an interdisciplinary analysis of petroleum, geopolitics, narco-traffic, intelligence and militarism—without which 9/11 cannot be understood. In reality, 9/11 and the resulting "War on Terror" are parts of a massive authoritarian response to an emerging economic crisis of unprecedented scale. Peak Oil—the beginning of the end for our industrial civilization—is driving the elites of American power to implement unthinkably draconian measures of repression, warfare and population control. Crossing the Rubicon is more than a story of corruption and greed. It is a map of the perilous terrain through which we are all now making our way.

Owning a dog in the city has a completely different set of challenges than owning a dog in a rural or suburban setting. The city is full of distractions for your dog such as congestion, noise, crowds of people, cars, buses, bicycles, rollerbladers, trash, sewers, alleys, roadways and other dogs. Where you can exercise your dog is limited, and maneuvering a dog through city streets and across busy roadways is often hazardous. Rat poison sprinkled in alleyways, garbage thrown on the sidewalk and around garbage bins, and city puddles filled with unknown substances are all threats to your dog's health. In this book, Cis Frankel, an urban dog trainer best known for training Oprah Winfrey's cocker spaniel, teaches owners what is proper dog etiquette in urban areas and explains how to deal with the specific difficulties of training and living with a dog in the city.

Written by one of the world's leading experts in the field, The Essential Guide to Remote Viewing is a basic introduction to the extraordinary extrasensory perceptual skill which was developed for the US military during the Cold War. This book describes what remote viewing is, how it came to be, what kinds of remote viewing there are, and counters skeptical arguments against remote viewing's legitimacy. Further, the book contains examples of successful remote viewing attempts, explains how remote viewing can be used for practical purposes, how ordinary civilians can themselves now learn to do it, and outlines experiments that readers can try for themselves. The ideal reader of The Essential Guide to Remote Viewing will be someone who knows little or nothing about remote viewing and wants an inexpensive source for credible information. Others who will be interested are those who are involved in remote viewing and want an easily-accessible introduction to give to friends or relatives who have questions about what this thing is their loved ones have gotten involved with. both interesting and useful.

The "Human Resource Exploitation Training Manual - 1983", was used in at least seven U.S. training courses conducted in Latin American countries, including Honduras, between 1982 and 1987. According to a declassified 1989 report prepared for the Senate intelligence committee, the 1983 manual was developed from notes of a CIA interrogation course in Honduras. The manuals deal exclusively with interrogation and has an entire chapter devoted to "coercive techniques". This manual recommends arresting suspects early in the morning by surprise, blindfolding them, and stripping them naked. Suspects should be held incommunicado and should be deprived of any kind of normal routine in eating and sleeping. Interrogation rooms should be windowless, soundproof, dark and without toilets.

The evidence in this book may not ultimately give you the "smoking gun" you are looking for on your journey, but I guarantee it will give you a box of bullets when you find it. In 1996, John Greenwald, Jr. began researching the secret inner workings of the U.S. Government at the age of fifteen. He targeted such agencies as the CIA, FBI, Pentagon, Air Force, Army, Navy, NSA, DIA, and countless others. Greenwald utilized the Freedom of Information Act (FOIA) to gain access to more than two million pages of documents. This archive includes information relating to UFOs, the JFK Assassination, chemical, biological, and nuclear

weapons, and top secret aircraft. He took the millions of pages, and over the course of more than two decades, has built an archive known around the world, as The Black Vault. Inside The Black Vault: The Government ' s UFO Secrets Revealed takes you on a journey within the secret world of unidentified aerial phenomenon that has plagued the military since at least the 1940s. Declassified records prove that the UFO topic is one of the most highly classified and most elusive subjects the U.S. Government has ever dealt with. Each chapter explores various agencies and their documents, and Greenwald breaks down the meaning of why some of the most important documents are relevant to proving a massive cover-up. Along with declassified documents, Greenwald outlines the struggle it took him to get them. No other topic has proven so difficult, in more than 8,000 FOIA requests that he has filed. He explores why that might be and meets skeptics and debunkers head on, outlining why some of their more prominent rebuttals for it all cannot be true.
