Writing Spaces: Readings on Writings, Vol. 2 Parlor Press LLC

In *The Moral Psychology of Clement of Alexandria*, Kathleen Gibbons proposes a new approach to Clement's moral philosophy and explores how his construction of Christianity's relationship with Jewishness informed, and was informed by, his philosophical project. As one of the earliest Christian philosophers, Clement's work has alternatively been treated as important for understanding the history of relations between Christianity and Judaism and between Christianity and pagan philosophy. This study argues that an adequate examination of his significance for the one requires an adequate examination of his significance for the other. While the ancient claim that the writings of Moses were read by the philosophical schools was found in Jewish, Christian, and pagan authors, Gibbons demonstrates that Clement's use of this claim shapes not only his justification of his authorial project, but also his philosophical argumentation. In explaining what he took to be the cosmological,

metaphysical, and ethical implications of the doctrine that the supreme God is a lawgiver, Clement provided the theoretical justifications for his views on a range of issues that included martyrdom, sexual asceticism, the status of the law of Moses, and the relationship between divine providence and human autonomy. By contextualizing Clement's discussions of volition against wider Greco-Roman debates about self-determination, it becomes possible to reinterpret the invocation of "free will" in early Christian heresiological discourse as part of a larger dispute about what human autonomy requires.

Praise and Blame in Roman Republican Rhetoric CUA Press

Drug overdose, driven largely by overdose related to the use of opioids, is now the leading cause of unintentional injury death in the United States. The ongoing opioid crisis lies at the intersection of two public health challenges: reducing the burden of suffering from pain

and containing the rising toll of the harms that can arise from the use of opioid medications. Chronic pain and opioid use disorder both represent complex human conditions affecting millions of Americans and causing untold disability and loss of function. In the context of the growing opioid problem, the U.S. Food and Drug Administration (FDA) launched an Opioids Action Plan in early 2016. As part of this plan, the FDA asked the National Academies of Sciences, Engineering, and Medicine to convene a committee to update the state of the science on pain research, care, and education and to identify actions the FDA and others can take to respond to the opioid epidemic, with a particular focus on informing FDA's development of a formal method for incorporating individual and societal considerations into its risk-benefit framework for

opioid approval and monitoring.

The Book of Peace

Cengage Learning

"An English translation of The Book of Peace, written between 1412 and 1414 by Christine de Pizan, one of the earliest known women authors. Translated material is side by side with the original French text"--Provided by publisher.

Reading Cicero Oxford University Press, USA Cicero, and others in the Roman Republic, were masters of both invective and panegyric, two hugely important genres in ancient oratory, which influenced the later theory and practice of rhetoric. The papers in this volume address strategies of vituperation and eulogy within the Republic, and examine the mechanisms and effects of

praise and blame.

Development Through Life: A Psychosocial Approach The Saylor Foundation

From the Viking invasions to the Crusades to the Hundred Years War, wars were crucial agents of change in medieval Europe. They fostered many economic and political changes. They also affected the science, technology, religion, and culture of the parties involved. This two-volume encyclopedia examines all aspects of warfare and military technology in medieval times. Featuring the latest research from the leading experts in medieval military

history, the set provides an exhaustive and accurate view of how and why wars were waged throughout Europe, the Byzantine Empire, and the Crusader States from circa 500 CE to circa 1500. Although many reference works have been published in medieval history, this is the first and only encyclopedia to focus exclusively on medieval warfare, offering unique insight into the subject by addressing developments in military technology across the period with articles on topics such as gunpowder and shields. The encyclopedia will appeal to scholars and readers of all levels

interested in military history and in the medieval world.

Newman and Newman use a life-stage approach to present development across the life span, drawing on the psychosocial theory of Erik Erikson to provide a conceptual framework for the text. The authors address physical, intellectual, social, and emotional growth in 11 life stages, from the prenatal period through elderhood, focusing on the idea that development results from the interdependence of these areas at every stage, and placing special emphasis on how optimal development may be fostered throughout life. Updated with new research findings throughout,

DEVELOPMENT THROUGH LIFE: A PSYCHOSOCIAL APPROACH, 13th Edition, provides a balanced view of normative patterns of development and diverse pathways, considering individual, family, cultural and societal factors that contribute to the diversity of life stories. Born in 39 C.E., the Roman poet Lucan lived during the turbulent reign of the emperor Nero. Prior to his death in 65 C.E., Lucan wrote prolifically, yet beyond some fragments, only his epic poem, the *Civil War*, has survived. Acclaimed by critics as one of the greatest literary achievements of the Roman Empire, the *Civil War* is a stirring account of the war between Julius Caesar and the forces of the republican senate led by Pompey the Great. Reading Lucan's *Civil War* is the first comprehensive guide to this important poem. Accessible to all readers, it is especially well suited for students encountering the work for the first time. As the editor, Paul Roche, explains in his introduction, the *Civil War* (alternatively known in Latin as *Bellum Civile*, *De Bello Civili*, or *Pharsalia*) is most likely an unfinished work. Roche places the poem in historical and literary contexts that will be helpful to first-time readers. The volume presents, chapter-by-chapter, essays that cover each of the *Civil War*'s ten extant books. Five further chapters address topics and issues pertaining to the entire work, including religion and ritual, philosophy, gender dynamics, and Lucan's relationships to Vergil and Julius Caesar. The contributors to this volume are all expert scholars who have published widely on Lucan's work and Roman imperial literature. Their essays provide readers

with a detailed understanding of and appreciation for the poem 's unique features. The contributors take special care to include translations of all original Latin passages and explain unfamiliar Latin and Greek terms. The volume is enhanced by a map of Lucan 's Roman world and a glossary of key terms.

Indian Givers

Routledge

"As entertaining as it is thoughtful....Few contemporary writers have Weatherford's talent for making the deep sweep of history seem vital and immediate."

--Washington Post

After 500 years, the world's huge debt to the wisdom of the Indians of the

Americas has finally been explored in all its vivid drama by anthropologist Jack Weatherford. He traces the crucial contributions made by the Indians to our federal system of government, our democratic institutions, modern medicine, agriculture, architecture, and ecology, and in this astonishing, ground-breaking book takes a giant step toward recovering a true American history.

Evidence of violence and hatred worldwide - from the bombing of

the World Trade Center and the global practices on September 11, 2001 of empathy, all with an eye toward the war in Iraq to the recent war between Israel and Hezbollah - understanding how and why this important concept matters. This call special attention to the critical importance of empathy in human affairs. Only when we begin to understand more fully the workings of empathy do we begin to be able to make sense of what happens to humans on a global scale. In *Empathy in a Global World*, Carolyn Calloway-Thomas examines the nature and zones of empathy, exploring how an understanding of empathy shapes global talk and action. This text presents the foundations of empathy, the historical beginnings of empathy, book explores how empathetic literacy is crucial in addressing intercultural issues; how it is needed in decision making; how it is communicated via the media; and how it affects global issues such as poverty and environmental disasters. Second, the book goes beyond existing knowledge on empathy and extends into the realms of media, global class issues, the world of NGOs, and natural disasters. As such, the book takes readers on a tour of empathy's nature, uses, practices

and potentials in this manner. In this regard, the proposed book breaks new and compelling ground. Third, in its scope, the book exploits the disciplines of communication, black studies, education, history, cultural studies, media, philanthropy, psychology, religious studies, and sociology to bring fresh insights into the discourse, dynamics, patterns, and practices of empathy. The Oxford Handbook of Rhetorical Studies John Benjamins Publishing Reconnecting Reading and Writing explores the ways in which reading can and should have a strong role in

the teaching of writing in college. Reconnecting Reading and Writing draws on broad perspectives from history and international work to show how and why reading should be reunited with writing in college and high school classrooms. It presents an overview of relevant research on reading and how it can best be used to support and enhance writing instruction. The Present State of Scholarship in the History of Rhetoric ISD LLC Volumes in Writing Spaces: Readings on Writing offer multiple perspectives on a wide-range of topics about writing. In each chapter, authors present their unique views, insights, and strategies for writing by addressing the

undergraduate reader directly. Drawing on their own experiences, these teachers-as-writers invite students to join in the larger conversation about the craft of writing. Consequently, each essay functions as a standalone text that can easily complement other selected readings in writing or writing-intensive courses across the disciplines at any level.

Human Development: A Life-Span View National Academies Press

Strabo's Geography, completed in the early first century AD, is the primary source for the history of Greek geography. This Guide provides the first English analysis of and commentary on this long and difficult text, and serves as a companion to the author's The Geography of Strabo, the first English translation of the work in many years. It thoroughly analyzes each

of the seventeen books and provides perhaps the most thorough bibliography as yet created for Strabo's work. Careful attention is paid to the historical and cultural data, the thousands of toponyms, and the many lost historical sources that are preserved only in the Geography. This volume guides readers through the challenges and complexities of the text, allowing an enhanced understanding of the numerous topics that Strabo covers, from the travels of Alexander and the history of the Mediterranean to science, religion, and cult.

The Oxford Guide to International Humanitarian Law National Academies Press

Since the publication of Thomas More's genre-defining work Utopia in 1516, the field of utopian literature has evolved into an ever-expanding

domain. This Companion presents an extensive historical survey of the development of utopianism, from the publication of *Utopia* to today's dark and despairing tendency towards dystopian pessimism, epitomised by works such as George Orwell's *Nineteen Eighty-Four* and Margaret Atwood's *The Handmaid's Tale*. Chapters address the difficult definition of the concept of utopia, and consider its relation to science fiction and other literary genres. The volume takes an innovative approach to the major themes predominating within the utopian and dystopian literary tradition, including feminism, romance and ecology, and explores in detail the

vexed question of the purportedly 'western' nature of the concept of utopia. The reader is provided with a balanced overview of the evolution and current state of a long-standing, rich tradition of historical, political and literary scholarship.

M. Tullius Cicero was a prolific writer, his writing covering an astonishingly wide spectrum: oratory,

letters, epic and didactic poetry, pamphlets, philosophical and rhetorical treatises. He was also a major political figure at Rome during the Late Republic. The relationship between these two facets of his career is the subject of this book, which argues that our understanding both of Cicero's oeuvre and of the practice and theory of public life in the Late Republic is transformed if Cicero's writings are read as a unified whole in the context of Roman politics. Writing offered Cicero a huge range of opportunities to impress himself upon an audience much wider than could be reached through the traditional mechanisms of politics at Rome; it also enabled him to construct a distinct identity in the public sphere as a substitute for his lack of political ancestry. A chapter on genre sites Cicero's writing in the late Republican context and

stresses both his inventiveness and his flexibility; then the ways in which Cicero's public personas and his relationships with others are articulated in his works are considered; the book concludes with a consideration of the connections between wr An Intercultural Perspective Penn State Press

Balanced coverage of the entire life span is just one thing that distinguishes HUMAN DEVELOPMENT: A LIFE-SPAN VIEW, Seventh Edition. With its comprehensive, succinct, and applied coverage, the text has proven its ability to capture students' interest while introducing them to the issues, forces, and outcomes that make us who we are. Robert V. Kail's expertise in

childhood and adolescence, combined with John C. Cavanaugh's extensive research in gerontology, result in a book with a rich description of all life-span stages and important topics. A modified chronological approach traces development in sequential order from conception through late life, while also dedicating several chapters to key topical issues. This organization also allows the book to be relatively briefer than other texts, a benefit given the enormous amount of information covered in the course. The authors provide theoretical and empirical foundations that enable students to become educated, critical interpreters of developmental

information. A blend of basic and applied research, as well as coverage of controversial topics and emergent trends, demonstrates connections between the laboratory and life.
