Two women searching through a secret past discover that their brief hotel liaison is only the beginning. Laurel Hoffman, an associate professor of women's studies in Berkeley, struggles to stay on track for tenure while caught up in the last throes of a crumbling relationship with a senior colleague. When she hears of a hotel being renovated and a secret room full of papers about women who once stayed there, she knows she has a potential career-saving article. Stefanie Beresford, the hotel owner, is not exactly receptive when Laurel approaches her about researching the hotel 's history, but that doesn't stop her from flirting with the alluring

academic. She doesn't need the distraction, but for the first time in her life she wants to take a chance on more than a fleeting encounter. While Laurel can't deny her powerful feelings for Stefanie, she fears she's risking her heart as well as her future if she acts on her desires. But can a simple encounter between two rational adults really be all that dangerous?

UGC-NET (Paper-I) Previous Years' Papers (Solved) New Age International
This book gathers selected high-quality research papers presented at the IconSWM 2018 conference, which explore various aspects of urban mining. In addition, they discuss how to achieve

sustainable waste management systems, urban mining, landfill mining, material recovery, circular economy, etc., with the aid of effective waste management practices. Additional topics covered include maximum resource circulation and efficiency, key differences between landfill mining and urban mining, and how urban mining can be combined with the concepts of circular economy and sustainability.

Management and Entrepreneurship Allied Publishers

This immensely valuable book of Solved Previous Years' Papers is specially published for the aspirants of UGC-NET (Paper-I) of Junior Research Fellowship and Assistant Professor Eligibility Exam. The book comprises several Solved Previous Years' Papers of UGC-NET Paper-I. Explanatory Answers are presented in such a manner to be useful for study and self-practice. The book is aimed to help you prepare well and sharpen your problem-solving skills by practising through numerous questions in these solved papers and face the exam with confidence, successfully.

About the Book: Of late, academicians of technical education have felt the importance of "Management" and "Entrepreneurship". Engineers need to manage their

departments/sections/subordinates, and Entrepreneurship helps the large pool of technical manpower in developing small-scale industries in high tech areas thereby contributing to the economy of the country. This book covers both 'Management' and 'Entrepreneurship'. The first chapters of this book deal with Management, Planning, Organizing and Staffing, Directing and Controlling. The last four chapters deal with Entrepreneurship, Small-Scale Industries, Institutional support and Project formulation. Adequate number of simple examples with which the students are familiar are included in each chapter. In addition, each chapter contains student learning activities to give the readers a chance to enhance the learning process. Though the book is written keeping in mind the syllabus of Visvesvaraya Technological University, yet it is useful for B.Com, BBM, DBM, PGDBM and MBA students also.

Contents: Management Planning

From the #1 New York Times-bestselling author, “ a page turner and one of [her] best romantic suspense tales to date ” (Fresh Fiction). Like many college students struggling to get by, Lily Madison and Peter Kelly help pay for tuition by making donations to a local fertility clinic. One day they meet each other at the clinic and find they have more in common than their mutual attraction, like the odd feeling all is not as it seems at the clinic. But their meeting is brief, and Lily and Pete go their separate ways. Twenty years later, Pete, now a wealthy entrepreneur, sees Lily in an airport and instantly falls for her all over again. While they enjoy their unlikely reunion, a story on the news captures their attention: the disappearance of two teenage boys may be linked to the fertility clinic Pete and Lily visited in college. In a shocking twist, one of the boys looks exactly like Pete . . . “ Fast-moving . . . Entertaining . . . a colorful cast of crusaders and villains . . . a roller-coaster ride of serendipitous fun. ” —Publishers Weekly

“ Thrilling. ” —Booklist Praise for Fern Michaels

“ Prose so natural that it seems you are witnessing a story rather than reading about it. ” —Los Angeles Sunday Times “ Michaels ’ Danielle Steel-like fun read has more plot twists than a soap opera, and will keep readers on tenterhooks for the next in the series. ” —Booklist “ Michaels just keeps getting better and better with each book . . . She never disappoints. ” —RT Book Reviews

Because the field of plastics is one of the
fastest changing areas today, the need arises
to offer relevant, comprehensive material
on polymers. An established source of
information on modern plastics, the Plastics
Technology Handbook continues to
provide up-to-date coverage on the
properties, processing methods, and
applications of polymers. Retaining the
easy-to-follow structure of the previous
editions, this fourth edition includes new
topics of interest that reflect recent
developments and lead to better insights

into the molecular behavior of polymers. New to the Fourth Edition Advances in supramolecular polymerization, flame retardancy, polymer-based nanomedicines, and drug delivery The new concept of oxo-biodegradable polymers Broadened discussion on plastic foams and foam extrusion processes More information on the processing and applications of industrial polymers, including the emerging field of nanoblends Developments in polymer synthesis and applications, such as polymeric sensors, hydrogels and smart polymers, hyperbranched polymers, shape memory polymers, polymeric optical fibers, scavenger resins, polymer nanocomposites, polymerization-filled composites, and wood-polymer composites A state-of-the-art account of the various available methods for plastics recycling Advances in the use of polymers in packaging, construction, the automotive and aerospace industries, agriculture, electronics and electrical technology, biomedical applications, corrosion prevention, and sports and marine applications Plastics Technology Handbook, Fourth Edition thoroughly covers traditional industrial polymers and

their processing methods as well as contemporary polymeric materials, recent trends, and the latest applications. Catalogue...authors, Titles, Subjects, and Classes CIPET JEE (Joint Entrance Exam) 2020 | 10 Mock Test | Latest Edition Practice Kit This volume discusses the structure and growth of the plastics industry, comprehensively displaying the complete cycle of plastics from raw materials to waste and solutions related to this waste - presenting practical cost scenarios for the collection and disposal of waste.;Examining the issue of plastics waste in a broad social and environmental context, Plastics Waste Management: considers the regulations imposed on waste disposal and aspects of pollution control acts; provides a technical overview of polymers, classifications, and properties as well as the plastics industry, polymer production, and consumption; addresses extrusion basics and polymers' compatibility in a mixture of plastic waste; describes the recycling of mixed plastics waste; and explores design considerations and product life cycles with respect to environmentally friendly products in packaging applications.;Furnishing more than 400 bibliographic citations, Plastics Waste Management is a reference for pollution

control, plastics, environmental, polymer and chemical engineers; recycling facility operators; plastics designers; and upper-level undergraduate and graduate students in these disciplines.

The book 'International Mathematics Olympiad' has been divided into five sections namely Mathematics, Logical Reasoning, Achievers section, Subjective section, and Model Papers. In every chapter, the theory has been explained through solved examples, illustrations and diagrams wherever required.

To enhance the problem solving skills of candidates Multiple Choice Questions (MCQs) with detailed solutions are provided in the end of each chapter. The questions in the Achievers' section are set to evaluate the mathematical skills of brilliant students while the subjective section includes questions of descriptive nature. Two Model Papers have been included for practice purpose. A CD containing Study Chart for systematic preparation, Tips & Tricks to crack Maths Olympiad, Pattern of exam, and links of Previous Years Papers is accompanied with this book. #v&spublishers
