The Book of Divine Works Zondervan

For years, tales of DRAGONS from another world kidnapping and enslaving humans have been circulating in Jason Masters' world, while for a slave girl named Koren, the stories of a human world seem pure myth. Together, these two teens will need to bridge two planets in order to overthrow the draconic threat and bring the lost slaves home. The mysteries unfold As a Starlighter, Koren knows her destiny is to save her fellow human slaves from the dragons' bondage—but by following the orders of the smooth-talking dragon king, Taushin, has she in fact doomed her people and herself? As Koren struggles over her choices, Elyssa discovers a new aspect to her Diviner gifts when her pendant begins to unlock mysteries surrounding the stardrops from the Exodus star. Soon Elyssa, along with Jason and his father, also uncovers new truths behind the dragons' prophecy and learns that Randall has teamed with Magnar and Arxad to wage battle against Taushin's followers. With a major war imminent and talk of a new Starlighter in the air, confusion and uncertainty reign—something Taushin might have planned for all along.

Mathematical circles, with their question-driven approach and emphasis on problem solving, expose students to the type of mathematics that stimulates the development of logical thinking, creativity, analytical abilities, and mathematical reasoning. These skills, while scarcely introduced at school, are in high demand in the modern world. This book, a sequel to Mathematical Circle Diaries, Year 1, teaches how to think and solve problems in mathematics. The material, distributed among twenty-nine weekly lessons, includes detailed lectures and discussions, sets of problems with solutions, and contests and games. In addition, the book shares some of the know-how of running a mathematical circle. The book

covers a broad range of problem-solving strategies and proofing techniques, as well as some more advanced topics that go beyond the limits of a school curriculum. The topics include invariants, proofs by contradiction, the Pigeonhole principle, proofs by coloring, double counting, combinatorics, binary numbers, graph theory, divisibility and remainders, logic, and many others. When students take science and computing classes in high school and college, they will be better prepared for both the foundations and advanced material. The book contains everything that is needed to run a successful mathematical circle for a full year. This book, written by an author actively involved in teaching mathematical circles for fifteen years, is intended for teachers, math coaches, parents, and math enthusiasts who are interested in teaching math that promotes critical thinking. Motivated students can work through this book on their own. In the interest of fostering a greater awareness and appreciation of mathematics and its connections to other disciplines and everyday life, MSRI and the AMS are publishing books in the Mathematical Circles Library series as a service to young people, their parents and teachers, and the mathematics profession.

Francis Schaeffer was a well-known, extremely influential apologist and

thinker who made his mark defending orthodox truth in the face of strong opposition. He was foremost in the vocation of apologetic ministry, and he was a brilliant man whom God used mightily during the decades of the 1960s, 70s, and 80s. In Truth with Love, Bryan Follis explores the theology and thinking that fueled the ministry of Francis Schaeffer, from his Reformed position to his understanding of fundamentalism. Follis examines Schaeffer's apologetic argument and the role of reason in his discussions and writings. The position Francis Schaeffer took against modernism and its applicability in this day of postmodernism are studied as well. This book is a beneficial resource for any Francis Schaeffer fan and any minister, teacher, or student who appreciates truth and its defense in the face of different kinds of opposition.

Eye of the Oracle Wander

One cold rainy day when my father was a little boy, he met an old alley cat on his street. The cat was very drippy and uncomfortable so my father said, "Wouldn't you like to come home with me?" This surprised the cat—she had never before met anyone who cared about old alley cats—but she said, "I'd be very much obliged if I could sit by a warm furnace, and perhaps have a saucer of milk."

In the mystical realm of the Seven Circles, all races have lived in harmony within their own spheres. Now, in the final installment of this trilogy from author Douglas Niles, they must band together to fight the ultimate evil. The threat of war has loomed over the spheres of the Seven Circles for more than five decades—and now the enemy has finally advanced, forcing the creatures of this peace-loving world into violent battle. If they lose, the Seven Circles will belong to Karlath-Fayd—a brutal Deathlord whose rule promises everlasting misery. Their only hope rests with the magic of the druids—the most evolved beings of all—who have summoned legendary warriors of the past to fight alongside an army that encompasses all the races. And as they confront the evil that has descended upon them, Miradel, the druid priestess who has saved her home twice before, journeys to the center of the world—to discover once and for all why the Seven Circles have been engulfed by this enduring darkness, and what can be done to end it.
