Circulatory System Review Guide Answers

57. How many loops does the human circulatory system contain? a. one b. two c. three d. four

58. Which of the following steps will NOT help prevent atherosclerosis? a. avoiding smoking b. exercising regularly c. eating foods that contain a lot of sodium d. avoiding foods that are high in saturated fats.

Short Answer  
Chapter 18: The Circulatory System

Modern Biology Study Guide Answer Key VOCABULARY

REVIEW 1. Each side of the heart is divided into an

---

upper chamber (an atrium) and a lower chamber (a ventricle). 2. The sinoatrial node sends electrical impulses to the atrioventricular node, which then relays electrical impulses to the muscles of the ventricles and causes them to contract. 3.

*EW THE CIRCULATORY SYSTEM - eaisbio*

7. What are the advantages of a closed circulatory system over an open circulatory system? A closed circulatory system is more efficient. Since blood circulates only inside blood vessels, it has a higher pressure and,

as a result, can travel greater distances to the organs where hemostasis happens and to peripheral tissues.

*Circulatory System  
Review Sheet 7A*

The cardiovascular  
system can be compared  
to a muscular pump  
equipped with one-way  
valves and a system of  
large and small  
plumbing tubes within  
which the blood  
travels. The modest  
size and weight of the  
heart give few hints  
of its incredible  
strength. The heart  
has four hollow
