Although C580 excluded retaining walls embedded in soft clays or weak rock, its principles were applied internationally to walls embedded in such ground conditions. The UK National Annex to Eurocode 7 (EC7) (BS EN 1997-1:2004+A1:2013 and BS EN 1997-2:2007) also references C580 as Non-contradictory Complementary Information. As the principles in EC7 have matured in their application, a revision to C580 was required for Eurocode compliance and to draw together the key lessons learned over ...
