CIRIA's new guide to embedded retaining wall design is a welcome update of a popular publication that will likely gain the same high level of acceptance within the industry as its predecessor,

believes David Puller. c584

Although C580 excluded retaining walls embedded in soft clays or weak rock, its principles were applied internationally to walls embedded in such ground conditions. The UK National Annex to Eurocode 7 (EC7) (BS EN 1997-1:2004+A1:2013 and BS EN 1997-2:2007 ) also references C580 as Non-contradictory Complementary Information. As the principles in EC7 have matured in their application, a

revision to C580 was required for Eurocode compliance and to draw together the key lessons learned over ...
