I checked "precisionhd\_1080p-720p\_camera\_user\_guide.pdf" but there was no description about 4x cameras for C40. (I found some descriptions about PrecisionHD 1080p4x there but they must be 4x cameras only for C20) I guess it is possible because 1080p 12x cameras which can daisy chain, have same physical interface as 1080p 4x cameras for C40.

Solved: Daisy chain with two C40 4x cameras - Cisco Community

This is not meant to be an exhaustive product guide to the C40; some settings and interface screenshots in the Cisco software may change as their user interface is updated. Some settings are similar in the C60, C90, and other Cisco products. The SX10 and SX20 are reported to be recommended for use as standalone products and not used as an ...

A physical interface will be numbered with the same interface name as is printed on the physical port. For example "GigabitEthernet 0/1" corresponds to port 1 on module 0 (or the base unit). A logical interface can be a subinterface on a routed port and will have a dot (".") preceding the subinterface number (ex. GigabitEthernet 0/1.1).
