Updates for Network Assistant .
Network Assistant can search Cisco.com to see whether new packages are available. Use either of these actions to request a search:
Choose Application > Preferences,

and use the Preferences window to request an automatic search every week or every month.
How to get access to Cisco Network Assistant download
With Cisco Network Assistant 5.8.7, you can configure these features on Catalyst 3850 switches: Controller configuration— Allows you to enable Cisco Discovery Protocol (CDP), a device discovery protocol that runs on all Cisco-manufactured equipment.
AAA method lists— Provides authentication, accounting, and authorization support.

On the Cisco Network Assistant within the monitor section, there's a 'system messages' link, that displays the various alerts, (warning, critical, informational, etc) for all the devices within that community, I'm asking if there's a way to delete those system messages? I've attached a screenshot .
Thanks
