A genuine U.S. passport permits its owner to travel freely in and out of the U.S., prove U.S. citizenship, obtain further identification documents, and set up bank accounts, among other things. The auditor was asked to proactively test the effectiveness of State's passport issuance

process to determine whether the process is vulnerable to fraud. The investigation shows that terrorists or criminals could steal an American citizen's identity, use basic counterfeiting skills to create fraudulent documentation for that identity, and obtain a genuine U.S. passport from the Dept. of State. The auditor conducted 4 tests simulating this approach and was successful in obtaining a genuine U.S. passport in each case.

Uncertainty is central to the governance of citizenship, but in ways that erase, even deny, this uncertainty. This book investigates

---

uncertain citizenship from the unique vantage point of 'citizenisation': twenty-first-century integration and naturalisation measures that make and unmake citizens and migrants, while indefinitely holding many applicants for citizenship in what Fortier calls the 'waiting room of citizenship'. Fortier's distinctive theory of citizenisation foregrounds how the full achievement of citizenship is a promise that is always deferred: if migrants and citizens are continuously citizenised, so too are they migratised. Citizenisation and migratisation are intimately linked within the structures of racial governmentality that enables the citizenship of racially minoritised citizens to be questioned and that casts them as perpetual migrants. Drawing on multi-sited fieldwork with migrants applying for citizenship or settlement and with intermediaries of the state tasked with implementing citizenisation

measures and policies, Fortier brings life to the waiting room of citizenship, giving rich empirical backing to her original theoretical claims. Scrutinising life in the waiting room enables Fortier to analyse how citizenship takes place, takes time and takes hold in ways that conform, exceed, and confound frames of reference laid out in both citizenisation policies and taken-for-granted understandings of 'the citizen' and 'the migrant'. *Uncertain Citizenship*'s nuanced account of the social and institutional function of citizenisation and migratisation offers its readers a grasp of the array of racial inequalities that citizenisation produces and reproduces, while providing theoretical and empirical tools to address these inequalities. *American Citizenship* DIANE Publishing  
In this groundbreaking work, Kamal Sadiq reveals that most of the world's illegal immigrants are not migrating directly to the US, but to countries in the vast developing

world, where they are able to obtain citizenship papers fairly easily. Sadiq introduces "documentary citizenship" to explain how paperwork--often falsely obtained--confers citizenship on illegal immigrants. Across the globe, there are literally tens of millions of such illegal immigrants who have assumed the guise of "citizens." Who, then, is really a citizen? And what does citizenship mean for most of the world's peoples? Rendered in vivid detail, *Paper Citizens* not only shows how illegal immigrants acquire false papers, but also sheds light on the consequences this will have for global security in the post 9/11 world.

The path to becoming a citizen of the United States of America can be arduous. My book lays out in great detail how immigrants can become U.S. citizens by simply following the guidelines laid out by the USCIS. This book shows the processes involved in becoming a U.S. citizen and explain what needs to be done each step of the way.

Beginning with an initial application, to biometrics, to interview, and all the forms filled out along the way - the process of immigrating to the U.S. is clearly spelled out for anyone who has an interest in moving to the U.S., or bringing a family member into the U.S. You will see actual immigration forms that I used in my own process and the response received from USCIS at each leg of my journey, along with the timelines for each part of the application process. In addition to all this, there is a question and answer chapter that provides answers to some of the many questions that arise during the immigration process. Fun facts and other tidbits are also included.

In this dissertation, "An Archive of Shame: Gender, Embodiment, and Citizenship in Contemporary American Culture," I use the affect of shame in its multiple forms and manifestations as a category of analysis in order to examine complex relationships between gender, sexuality, the body, and citizenship. Through chapters on incest, gender normalization, and disease, I build an "archive" of the feeling of shame that consists of literary texts such as Sapphire's *Push: A Novel*, Jeffrey Eugenides's *Middlesex*, Tony Kushner's *Angels in*

---

America, and Katherine Dunn's *Geek Love*, as well as materials from popular culture, films such as *Philadelphia*, court cases, and other ephemera such as pamphlets and news coverage. In order to construct this archive, I bring together seemingly disparate materials and create readings of American culture that illustrate how the category of citizen is produced by the shaming of women, the gender non-conforming, and the diseased. Using feminist theoretical models, I critique previous discussions of citizenship, the state, and the body in queer theory, which have reified the privilege of whiteness and maleness by evacuating the bodies of women, the gender non-conforming, and the diseased of their radical potential to undermine oppressive state institutions. The texts I analyze in this project interrogate normalized processes of documentation and archiving, and through their subject matter as well as their form, these texts participate in the archival process-theorizing and exploring alternative methods of documentation, collecting, and historicizing and so illustrate how the discourses produced by mainstream history are built upon the maintenance of social

hierarchies. By bringing these texts together, I am developing a theory of the archive and its processes, its bodies, and its feelings. Archiving as a practice collects and documents, and in that collection, develops a coherent narrative about a particular event or history. Critical theory is also a process of making meaning through the collection of events, documents, and texts into a cohesive set of terms in order to make particular abstract claims. This process is often obscured both in archiving and in theorizing by naturalizing the selection of the materials that matter. The alternative archives in this dissertation make that process explicit in order to foreground its erasures and elisions; they register material difference and the ways in which the archive is reproductive of social relations. The transient and unstable nature of the archives produced within the texts of this project makes them difficult to pin down and make coherent, but that is what makes them powerful and transformative. I read these materials as sites where questions about the official histories of the nation, which are constructed through race, gender, and sex, might be played out. The archive

of shame I compile in this project, therefore, can be read as a collection of partial sites of struggle against oppressive power relationships.

Since 2011 Myanmar has experienced many changes to its social, political and economic landscape. The formation of a new government in 2016, led by the National League for Democracy, was a crucially important milestone in the country's transition to a more inclusive form of governance. And yet, for many people everyday struggles remain unchanged, and have often worsened in recent

---

years. Key economic, social and political reforms are stalled, conflict persists and longstanding issues of citizenship and belonging remain. The wide-ranging, myriad and multiple challenges of Living with Myanmar is the subject of this volume. Following the Myanmar Update series tradition, each of the authors offers a different perspective on the sociopolitical and economic mutations occurring in the country and the challenges that still remain. The book is divided into six sections and covers critical issues ranging from gender equality and identity politics, to agrarian reform and the representative role of parliament. Collectively, these voices raise key questions concerning the institutional legacies of military rule and their ongoing role in subverting the country's reform process. However, they also offer insights into the creative and productive ways that Myanmar's activists, civil society, parliamentarians, bureaucrats and everyday people attempt to engage with and reform those legacies.

This two-volume set examines how today's U.S. citizen was first imagined, how citizenship was established and codified, and how it has been refined over time. Essays also consider barriers to full citizenship, including voting rights, civil rights, prisoner's rights, immigration quotas, and the process of becoming a naturalized citizen. Slavery is also discussed, as slaves were not considered citizens at all and, in fact, only counted as three-fifths a man.

Constitutional amendments, civil rights legislation, and a parade of court cases both advanced and prevented individuals from achieving citizenship. White women were considered citizens from the nation's earliest days, but they could not vote, hold office, or serve on juries, until the determined efforts of suffragists began the process of making all women full citizens with all of its attendant rights, including the right to vote. Native Americans were not officially U.S. citizens until passage of the Indian Citizenship Act in 1924.
