The path to becoming a citizen of the United States of America can be arduous. My book lays out in great detail how immigrants can become U.S. citizens by simply following the guidelines laid out by the USCIS. This book shows the processes involved in becoming a U.S. citizen and explain what needs to be done each step of the way. Beginning with an initial application, to biometrics, to interview, and all the forms filled out along the way - the process of immigrating to the U.S. is clearly spelled out for anyone who has an interest in moving to the U.S., or bringing a family member into the U.S. You will see actual immigration forms that I used in my own process and the response received from USCIS at each leg of my journey, along with the timelines for each part of the application process. In addition to all this, there is a question and answer chapter that provides answers to some of the many questions that arise during the immigration process. Fun facts and other tidbits are also included.

Since 2011 Myanmar has experienced many changes to its social, political and economic landscape. The formation of a new government in 2016, led by the National League for

Democracy, was a crucially important milestone in the country's transition to a more inclusive form of governance. And yet, for many people everyday struggles remain unchanged, and have often worsened in recent years. Key economic, social and political reforms are stalled, conflict persists and longstanding issues of citizenship and belonging remain. The wide-ranging, myriad and multiple challenges of Living with Myanmar is the subject of this volume. Following the Myanmar Update series tradition, each of the authors offers a different perspective on the sociopolitical and economic mutations occurring in the country and the challenges that still remain. The book is divided into six sections and covers critical issues ranging from gender equality and identity politics, to agrarian reform and the representative role of parliament.

Collectively, these voices raise key questions concerning the institutional legacies of military rule and their ongoing role in subverting the country's reform process. However, they also offer insights into the creative and productive ways that Myanmar's activists, civil society, parliamentarians, bureaucrats and everyday people attempt to engage with and reform those legacies.

Few African countries provide for an explicit right to a nationality. Laws and practices governing citizenship effectively leave hundreds of thousands of people in Africa without a country. These stateless Africans can neither vote nor stand for office; they cannot enrol their children in school, travel freely, or own property; they cannot work for the government; they are exposed to human rights abuses. Statelessness exacerbates and underlies tensions in many regions of the continent. *Citizenship Law in Africa*, a comparative study by two programs of the Open Society Foundations, describes the often arbitrary, discriminatory, and contradictory citizenship laws that exist from state to state and recommends ways that African countries can bring their citizenship laws in line with international rights norms. The report covers topics such as citizenship by descent, citizenship by naturalisation, gender discrimination in citizenship law, dual citizenship, and the right to identity documents and passports. It is essential reading for policymakers, attorneys, and activists. This third edition is a comprehensive revision of the original text, which is also updated to reflect developments at national and continental levels. The original tables presenting comparative analysis of all the continents nationality laws have been improved, and new tables added on additional aspects of the law. Since the second edition was published in 2010, South Sudan has become independent and adopted its own nationality law, while there have been revisions to the laws in Cote d'Ivoire, Kenya, Libya, Mali, Mauritania, Namibia, Niger, Senegal, Seychelles, South Africa, Sudan, Tunisia and Zimbabwe. The African Commission on Human and Peoples Rights and the African Committee of Experts on the Rights and Welfare of the Child have developed important new normative guidance.
