This two-volume set examines how today's U.S. citizen was first imagined, how citizenship was established and codified, and how it has been refined over time. Essays also consider barriers to full citizenship, including voting rights, civil rights, prisoner's rights, immigration quotas, and the process of becoming a naturalized citizen. Slavery is also

discussed, as slaves were not considered citizens at all and in fact only counted as three-fifths of man. Constitutional amendments, civil rights legislation, and a parade of court cases both advanced and prevented individuals from achieving citizenship. White women were considered citizens from the nation's earliest days, but they could not vote, hold office, or serve on juries until the determined efforts of suffragists began the process of making all women full citizens with all of its attendant rights, including the right to vote. Native Americans were not officially U.S. citizens until the passage of the Indian Citizenship Act in 1924. Readers will gain an in-depth understanding of American citizenship. The documents analyzed in this set include: The Declaration of Independence; The United States Constitution; The Bill of Rights; The Compromise of 1850; The Fifteenth, Nineteenth, Twenty-fourth, and Twenty-fifth Amendments; David Walker's Appeal to the Colored Citizens of the World; Susan B. Anthony's "Is It a Crime for a Citizen of the United States to Vote?"; Voting Rights Act of 1975. Each in-depth chapter provides a thorough commentary and analysis of each primary source document, often reprinted in its entirety. Commentary includes a Summary, Overview, Defining Moment, Author Biography, Detailed Document Analysis, and discussion of Essential Themes. Many of these chapters are bolstered through the inclusion of Supplemental Historical Documents, which broaden the scope of the book and offer additional context. - Publisher.

Welcome to the United States DIANE Publishing

Hundreds of thousands of people living in Africa find themselves non-persons in the only state they have ever known. Because they are not recognized as citizens, they cannot get their children registered at birth or entered in school or university; they cannot access state health services; they cannot obtain travel documents, or employment without a work permit; and if they leave the country they may not be able to return. Most of all, they cannot vote, stand for office, or work for state institutions. Ultimately such policies can lead to economic and political disaster, or even war. The conflicts in both Côte d'Ivoire and the Democratic Republic of Congo have had at their hearts the very right of one part of the national population to share with others on equal terms the rights and duties of citizenship. This book brings together new material from across Africa of the most egregious examples of citizenship discrimination, and makes the case for urgent reform of the law.

The path to becoming a citizen of the United States of America can be arduous. My book lays out in great detail how immigrants can become U.S. citizens by simply following the guidelines laid out by the USCIS. This book shows the processes involved in becoming a U.S. citizen and explain what needs to be done each step of the way. Beginning with an initial application, to biometrics, to interview, and all the forms filled out along the way - the process of immigrating to the U.S. is clearly spelled out for anyone who has an interest in moving to the U.S., or bringing a family member into the U.S. You will see actual immigration forms that I used in my own process and the response received from USCIS at each leg of my journey, along with the timelines for each part of the application process. In addition to all this, there is a question and answer chapter that provides answers to some of the many

questions that arise during the immigration process. Fun facts and other tidbits are also included.

They Became Americans Oxford University Press

A genuine U.S. passport is a vital document, permitting its owner to travel freely in and out of the United States, prove U.S. citizenship, obtain further identification documents, and set up bank accounts, among other things.

Unfortunately, a terrorist or other criminal could take advantage of these benefits by fraudulently obtaining a genuine U.S. passport from the Department of State (State). There are many ways that malicious individuals could fraudulently obtain a genuine U.S. passport, including stealing an American citizen's identity and counterfeiting or fraudulently obtaining identification or citizenship documents to meet State requirements. GAO was asked to proactively test the effectiveness of State's passport issuance process to determine whether the process is vulnerable to fraud. To do so, GAO designed four test scenarios that simulated the actions of a malicious individual who had access to an American citizen's personal identity information. GAO created counterfeit documents for four fictitious or deceased individuals using off-the-shelf, commercially available hardware, software, and materials. An undercover GAO investigator then applied for passports at three United States Postal Service (USPS) locations and a State-run passport office.

In this dissertation, "An Archive of Shame: Gender, Embodiment, and Citizenship in Contemporary American Culture," I use the affect of shame in its multiple forms and manifestations as a category of analysis in order to examine complex relationships between gender, sexuality, the body, and citizenship. Through chapters on incest, gender normalization, and disease, I build an "archive" of the feeling of shame that consists of literary texts such as Sapphire's *Push: A Novel*, Jeffrey Eugenides's *Middlesex*, Tony Kushner's *Angels in America*, and Katherine Dunn's *Geek Love*, as well as materials from popular culture, films such as *Philadelphia*, court cases, and other ephemera such as pamphlets and news coverage. In order to construct this archive, I bring together seemingly disparate materials and create readings of American culture that illustrate how the category of citizen is produced by the shaming of women, the gender non-conforming, and the diseased. Using feminist theoretical models, I critique previous discussions of citizenship, the state, and the body in queer theory, which have reified the privilege of whiteness and maleness by evacuating the bodies of women, the gender non-conforming, and the diseased of their radical potential to undermine oppressive state institutions. The texts I analyze in this project

interrogate normalized processes of documentation and archiving, and through their subject matter as well as their form, these texts participate in the archival process-theorizing and exploring alternative methods of documentation, collecting, and historicizing and so illustrate how the discourses produced by mainstream history are built upon the maintenance of social hierarchies. By bringing these texts together, I am developing a theory of the archive and its processes, its bodies, and its feelings. Archiving as a practice collects and documents, and in that collection, develops a coherent narrative about a particular event or history. Critical theory is also a process of making meaning through the collection of events, documents, and texts into a cohesive set of terms in order to make particular abstract claims. This process is often obscured both in archiving and in theorizing by naturalizing the selection of the materials that matter. The alternative archives in this dissertation make that process explicit in order to foreground its erasures and elisions; they register material difference and the ways in which the archive is reproductive of social relations. The transient and unstable nature of the archives produced within the texts of this project makes them difficult to pin down and make coherent, but that is what makes them powerful and transformative. I read these materials as sites where questions about the official histories of the nation, which are constructed through race, gender, and sex, might be played out. The archive of shame I compile in this project, therefore, can be read as a collection of partial sites of struggle against oppressive power relationships.
