Every Citroen car has a unique
identifier code called a VIN. This
number contains vital
information about the car, such as
its manufacturer, year of
production, the plant it was
produced in, type of engine,
model and more. For instance, if
someone wants to buy a car, it is
possible to check the VIN
number on the online database
to ensure that the car was not
stolen, damaged or illegally
modified.

Enter the car make and car
model for which you want to
see an overview of engine
codes. In the overview, you
will then get a list of the
engine codes with the years
of construction and engine
capacity. If there is a match
with other car makes and car
models, these will also be
shown in the overview. ...
